STATEMENT OF ADDITIONAL INFORMATION

Dated November 25, 2025

This Statement of Additional Information (“SAI”) is not a prospectus. It should be read in conjunction with the current prospectus for the Funds dated November 25, 2025 as it may be supplemented or revised from time to time. This SAI is incorporated by reference into the Funds’ prospectus. You can obtain a free copy of the annual and semi-annual reports, prospectus and SAI by writing to Applied Finance ETFs, 8730 Stony Point Parkway, Suite 205, Richmond, Virginia 23235, by calling the Funds toll free at (833) 356-0909, by e-mail at: mail@ccofva.com. Each Fund’s annual and semi-annual reports, prospectus and SAI are all available for viewing/downloading at www.appliedfinancefunds.com. General inquiries regarding the Funds may also be directed to the above address or telephone number.

THE TRUST

General. This SAI relates to Applied Finance IVS US SMID ETF, the Applied Finance IVS International Large ETF and the Applied Finance IVS International SMID ETF (the “Funds”) and should be read in conjunction with the prospectus of the Funds. This SAI is incorporated by reference into the Funds’ prospectus. No investment in shares should be made without reading the prospectus. Each Fund is a diversified series of ETF Opportunities Trust, a Delaware statutory trust (the “Trust”). The Trust is registered as an open-end management investment company. The Trust is governed by its Board of Trustees (the “Board” or “Trustees”). The investment adviser to the Funds is Applied Finance Advisors, LLC (the “Adviser”) and the sub-adviser to the Funds is Tidal Investments, LLC (the “Sub-Adviser”).

Each Fund may issue an unlimited number of shares of beneficial interest (“Shares”). All Shares have equal rights and privileges. Each Share is entitled to one vote on all matters as to which Shares are entitled to vote. In addition, each Share is entitled to participate equally with other Shares (i) in dividends and distributions declared by each Fund and (ii) on liquidation to its proportionate share of the assets remaining after satisfaction of outstanding liabilities. Shares are fully paid, non-assessable and fully transferable when issued and have no pre-emptive, conversion or exchange rights. Fractional Shares have proportionately the same rights, including voting rights, as are provided for a full Share.

Each Fund will issue and redeem Shares at net asset value (“NAV”) in aggregations of at least twenty-five thousand (25,000) Shares (each a “Creation Unit”). The Funds will normally offer creations and redemptions of Shares in exchange for a basket of securities (the “Deposit Securities”), together with the deposit of a specified cash payment (the “Cash Component”), plus a transaction fee. The Funds reserve the right to issue and redeem Creation Units for cash. Each Fund is listed on a national securities exchange (the “Exchange”) as set forth below.

Fund	Ticker	Principal U.S. Listing Exchange
Applied Finance IVS US SMID ETF	IVSS	Nasdaq Stock Market®
Applied Finance IVS International Large ETF	IVSI	Nasdaq Stock Market®
Applied Finance IVS International SMID ETF	IVSX	Nasdaq Stock Market®

Shares will trade on the secondary market at market prices that may be below, at, or above NAV. In the event of the liquidation of either Fund, a share split, reverse split or the like, the Trust may revise the number of Shares in a Creation Unit.

Shares may be issued in advance of receipt of Deposit Securities subject to various conditions as described herein - see the section titled “Placement of Creation Orders Outside the Clearing Process” found in this SAI. In each instance of such cash creations or redemptions, transaction fees may be imposed and may be higher than the transaction fees associated with in-kind creations or redemptions. See “Additional Information About Purchase and Redemptions” below.

ADDITIONAL INFORMATION ABOUT INVESTMENT OBJECTIVES AND POLICIES

Each Fund’s investment objective and principal investment strategies are described in the prospectus. Each Fund is classified as “non-diversified” under the Investment Company Act of 1940, as amended. This means each Fund has the ability to invest a relatively high percentage of its assets in the securities of a small number of issuers or in financial instruments with a single counterparty or a few counterparties. This may increase each Fund’s volatility and increase the risk that each Fund’s performance will decline based on the performance of a single issuer or the credit of a single counterparty and make each Fund more susceptible to risks associated with a single economic,

political or regulatory occurrence than a diversified fund. For a description of certain permitted investments discussed below, see “Description of Permitted Investments” in this SAI.

Portfolio Turnover. Average annual portfolio turnover rate is the ratio of the lesser of sales or purchases to the monthly average value of the portfolio securities owned during the year, excluding from both the numerator and the denominator all securities with maturities at the time of acquisition of one year or less. A higher portfolio turnover rate involves greater transaction expenses to the Funds and may result in the realization of net capital gains, which would be taxable to shareholders when distributed. As of the date of this Prospectus, the Funds have not yet commenced operations and therefore does not have any portfolio turnover information available.

DESCRIPTION OF PERMITTED INVESTMENTS

The following discussion of investment techniques and instruments supplements, and should be read in conjunction with, the investment information in the Funds’ prospectus. In seeking to meet its investment objective, each Fund may invest in any type of security whose characteristics are consistent with its investment programs. To the extent particular investment techniques or instruments are not described in the Principal Investment Strategies disclosure of the Funds’ prospectus, such investment techniques and instruments are not a part of the principal strategies and the corresponding risks are not principal risks of the Funds.

Equity Securities. Equity securities, such as the common stocks of an issuer, are subject to stock market fluctuations and therefore may experience volatile changes in value as market conditions, consumer sentiment or the financial condition of the issuers change. A decrease in value of the equity securities in each Fund’s portfolio may also cause the value of the Fund Shares to decline.

An investment in a Fund should be made with an understanding of the risks inherent in an investment in equity securities, including the risk that the financial condition of issuers may become impaired or that the general condition of the stock market may deteriorate (either of which may cause a decrease in the value of a Fund’s portfolio securities and therefore a decrease in the value of Shares of the Fund). Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence and perceptions change. These investor perceptions are based on various and unpredictable factors, including expectations regarding government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction; and global or regional political, economic or banking crises.

Holders of common stocks incur more risk than holders of preferred stocks and debt obligations because common stockholders, as owners of the issuer, generally have inferior rights to receive payments from the issuer in comparison with the rights of creditors or holders of debt obligations or preferred stocks. Further, unlike debt securities, which typically have a stated principal amount payable at maturity (whose value, however, is subject to market fluctuations prior thereto), or preferred stocks, which typically have a liquidation preference and which may have stated optional or mandatory redemption provisions, common stocks have neither a fixed principal amount nor a maturity. Common stock values are subject to market fluctuations as long as the common stock remains outstanding.

Types of Equity Securities:

Common Stocks. Common stocks represent units of ownership in a company. Common stocks usually carry voting rights and earn dividends. Unlike preferred stocks, which are described below, dividends on common stocks are not fixed but are declared at the discretion of the company’s board of directors.

Preferred Stocks. Preferred stocks are also units of ownership in a company. Preferred stocks normally have preference over common stock in the payment of dividends and the liquidation of the company. However, in all other respects, preferred stocks are subordinated to the liabilities of the issuer. Unlike common stocks, preferred stocks are generally not entitled to vote on corporate matters. Types of preferred stocks include adjustable-rate preferred stock, fixed dividend preferred stock, perpetual preferred stock, and sinking fund preferred stock.

Generally, the market values of preferred stock with a fixed dividend rate and no conversion element vary inversely with interest rates and perceived credit risk.

Rights and Warrants. A right is a privilege granted to existing shareholders of a corporation to subscribe to shares of a new issue of common stock before it is issued. Rights normally have a short life of usually two to four weeks, are freely transferable and entitle the holder to buy the new common stock at a lower price than the public offering price. Warrants are securities that are usually issued together with a debt security or preferred stock and that give the holder the right to buy proportionate amount of common stock at a specified price. Warrants are freely transferable and are traded on major exchanges. Unlike rights, warrants normally have a life that is measured in years and entitles the holder to buy common stock of a company at a price that is usually higher than the market price at the time the warrant is issued. Corporations often issue warrants to make the accompanying debt security more attractive.

An investment in warrants and rights may entail greater risks than certain other types of investments. Generally, rights and warrants do not carry the right to receive dividends or exercise voting rights with respect to the underlying securities, and they do not represent any rights in the assets of the issuer. In addition, their value does not necessarily change with the value of the underlying securities, and they cease to have value if they are not exercised on or before their expiration date. Investing in rights and warrants increases the potential profit or loss to be realized from the investment as compared with investing the same amount in the underlying securities.

Smaller Companies. The securities of small- and mid-capitalization companies may be more vulnerable to adverse issuer, market, political, or economic developments than securities of larger-capitalization companies. The securities of small- and mid-capitalization companies generally trade in lower volumes and are subject to greater and more unpredictable price changes than larger capitalization stocks or the stock market as a whole. Some small- or mid-capitalization companies have limited product lines, markets, and financial and managerial resources and tend to concentrate on fewer geographical markets relative to larger capitalization companies. There is typically less publicly available information concerning small- and mid-capitalization companies than for larger, more established companies. Small- and mid-capitalization companies also may be particularly sensitive to changes in interest rates, government regulation, borrowing costs, and earnings.

Tracking Stocks. Each Fund may invest in tracking stocks. A tracking stock is a separate class of common stock whose value is linked to a specific business unit or operating division within a larger company and which is designed to track the performance of such business unit or division. The tracking stock may pay dividends to shareholders independent of the parent company. The parent company, rather than the business unit or division, generally is the issuer of tracking stock. However, holders of the tracking stock may not have the same rights as holders of the company's common stock.

When-Issued Securities. A when-issued security is one whose terms are available and for which a market exists, but which has not been issued. When a Fund engages in when-issued transactions, it relies on the other party to consummate the sale. If the other party fails to complete the sale, a Fund may miss the opportunity to obtain the security at a favorable price or yield.

When purchasing a security on a when-issued basis, the Fund assumes the rights and risks of ownership of the security, including the risk of price and yield changes. At the time of settlement, the value of the security may be more or less than the purchase price. The yield available in the market when the delivery takes place also may be higher than those obtained in the transaction itself. Because the Funds do not pay for the security until the delivery date, these risks are in addition to the risks associated with its other investments.

Decisions to enter into when-issued transactions will be considered on a case-by-case basis when necessary to maintain continuity in a company's index membership.

Convertible Securities. Each Fund may invest in convertible securities. Traditional convertible securities include corporate bonds, notes and preferred stocks that may be converted into or exchanged for common stock or other equity securities, and other securities that also provide an opportunity for equity participation. These securities are convertible either at a stated price or a stated rate (that is, for a specific number of shares of common stock or other equity securities). As with other fixed income securities, the price of a convertible security generally varies inversely with interest rates. While providing a fixed income stream, a convertible security also affords the investor an opportunity, through its conversion feature, to participate in the capital appreciation of the common stock into which it is convertible. As the market price of the underlying common stock declines, convertible securities tend to trade increasingly on a yield basis and therefore may not experience market value declines to the same extent as the underlying common stock. When the market price of the underlying common stock increases, the price of a convertible security tends to rise as a reflection of higher yield or capital appreciation. In such situations, the price of a convertible security may be greater than the value of the underlying common stock.

Warrants. Each Fund may invest in warrants. Warrants are options to purchase equity securities at a specific price for a specific period of time. They do not represent ownership of the securities, but only the right to buy them. Hence, warrants have no voting rights, pay no dividends and have no rights with respect to the assets of the corporation issuing them. The value of warrants is derived solely from capital appreciation of the underlying equity securities. Warrants differ from call options in that the underlying corporation issues warrants, whereas call options may be written by anyone.

Investment Company Securities. The Funds may invest in shares of other registered investment companies, including open-end funds, closed-end funds, exchange-traded funds ("ETFs") and money market funds. The Funds may invest in inverse ETFs, including leveraged ETFs. Inverse ETFs seek to provide investment results that match a certain percentage of the inverse of the results of a specific index on a daily or monthly basis. The Funds also may invest in ETFs whose portfolios primarily consist of commodities.

When the Funds invest in other investment companies, they indirectly will bear their proportionate share of any fees and expenses payable directly by the underlying funds. Therefore, the Funds will incur higher expenses, many of which may be duplicative. In addition, the Funds may be affected by losses of the underlying funds and the level of risk arising from the investment practices of the underlying funds (such as the use of leverage by the funds). The Funds have no control over the investments and related risks taken by the underlying funds in which they invest. Because the Funds are not required to hold shares of underlying funds for any minimum period, they may be subject to, and may have to pay, short-term redemption fees imposed by the underlying funds.

In addition to risks generally associated with investments in investment company securities, ETFs are subject to the following risks that do not apply to traditional mutual funds: (i) the ETF's shares may trade at a market price that is above or below its net asset value; (ii) an active trading market for an ETF's shares may not develop or be maintained; (iii) the ETF may employ an investment strategy that utilizes high leverage ratios; or (iv) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the

activation of market-wide “circuit breakers” (which are tied to large decreases in stock prices) halts stock trading generally.

Inverse and leveraged ETFs are subject to additional risks not generally associated with traditional ETFs. To the extent that the Funds invest in inverse ETFs, the value of the Funds’ investment will decrease when the index underlying the ETF’s benchmark rises, a result that is the opposite from traditional equity or bond funds. The net asset value and market price of leveraged or inverse ETFs are usually more volatile than the value of the tracked index or of other ETFs that do not use leverage. This is because inverse and leveraged ETFs use investment techniques and financial instruments that may be considered aggressive, including the use of derivative transactions and short selling techniques. The use of these techniques may cause the inverse or leveraged ETFs to lose more money in market environments that are adverse to their investment strategies than other funds that do not use such techniques.

To the extent that the Funds invest in ETFs that invest in commodities, they will be subject to additional risks. Commodities are real assets such as oil, agriculture, livestock, industrial metals, and precious metals such as gold or silver. The values of ETFs that invest in commodities are highly dependent on the prices of the related commodities. The demand and supply of these commodities may fluctuate widely based on such factors as interest rates, investors’ expectations with respect to the rate of inflation, currency exchange rates, the production and cost levels of the producing countries and/or forward selling by such producers, global or regional political, economic or financial events, purchases and sales by central banks, and trading activities by hedge funds and other commodity funds. Commodity ETFs may use derivatives, such as futures, options and swaps, which exposes them to further risks, including counterparty risk (i.e., the risk that the institution on the other side of their trade will default).

With respect to registered investment companies in which the Funds may invest, Section 12(d)(1)(A) of the 1940 Act requires that, as determined immediately after a purchase is made, (i) not more than 5% of the value of a Fund’s total assets will be invested in the securities of any one investment company, (ii) not more than 10% of the value of a Fund’s total assets will be invested in securities of investment companies as a group, and (iii) not more than 3% of the outstanding voting stock of any one investment company will be owned by a Fund. Each Fund will limit its investments in funds in accordance with the Section 12(d)(1)(A) limitations set forth above, except to the extent that any rules, regulations or no-action or exemptive relief under the 1940 Act permits a Fund’s investments to exceed such limits. For example, Rule 12d1-4 under the 1940 Act permits the Funds to invest in other investment companies beyond the statutory limits, subject to certain conditions. Among other conditions, Rule 12d1-4 prohibits a fund from acquiring control of another investment company (other than an investment company in the same group of investment companies), including by acquiring more than 25% of its voting securities. In addition, Rule 12d1-4 imposes certain voting requirements when a fund’s ownership of another investment company exceeds particular thresholds. If shares of a fund are acquired by another investment company, the “acquired” fund may not purchase or otherwise acquire the securities of an investment company or private fund if immediately after such purchase or acquisition, the securities of investment companies and private funds owned by that acquired fund have an aggregate value in excess of 10% of the value of the total assets of the fund, subject to certain exceptions. These restrictions may limit the Funds’ ability to invest in other investment companies to the extent desired. In addition, other unaffiliated investment companies may impose other investment limitations or redemption restrictions which may also limit the Funds’ flexibility with respect to making investments in those unaffiliated investment companies.

Debentures. Debentures are a general debt obligation backed only by the integrity of the borrower and documented by an agreement called an Indenture. An unsecured bond is a debenture.

Illiquid Securities. Each Fund may not invest more than 15% of the value of its net assets in securities that may be considered illiquid, by virtue of the absence of a readily available market, legal or contractual restrictions on resale, or other factors limiting the marketability of the security.

Generally, an illiquid security is any security that a Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the security. The Adviser will monitor the amount of illiquid securities in a Fund's portfolio, under the supervision of the Board of Trustees of the Trust (the "Board"), to ensure compliance with this investment restriction. Each Fund has a liquidity risk management program designed to assess and manage the Fund's liquidity risk. The program has been approved by the Board, which has also approved the appointment of a liquidity program administrator (the "LPA"). The LPA is responsible for oversight of the Fund's liquidity risk management efforts, including classifying the liquidity of each Fund investment, ensuring the Fund holds no more than 15% of its net assets in illiquid investments, ensuring that the Fund holds enough liquid assets to meet reasonably foreseeable redemption requests, and reporting to the Board regarding the effectiveness and operation of the liquidity risk management program.

Debt Securities. Each Fund may invest in debt securities. It generally will invest in debt securities rated Baa or higher by Moody's Investor Service, Inc. ("Moody's") or BBB or higher by Standard & Poor's Rating Group ("S&P") or foreign securities not subject to standard credit ratings, which the Adviser/Sub-Adviser believes are of comparable quality. Debt securities consist of bonds, notes, government and government agency securities, zero coupon securities, convertible bonds, asset-backed and mortgage-backed securities, and other debt securities whose purchase is consistent with the Fund's investment objectives. Each Fund's investments may include international bonds that are denominated in foreign currencies, including the European Currency Unit or "Euro." International bonds are defined as bonds issued in countries other than the United States. Each Fund's investments may include debt securities issued or guaranteed by supranational organizations, corporate debt securities, and bank or holding company debt securities.

Fixed Income Securities. To respond to adverse market, economic, political or other conditions, each Fund may invest 100% of its total assets, without limitation, in high-quality short-term fixed income securities. Fixed income securities are subject to credit risk and interest rate risk. Credit risk is the risk that a Fund could lose money if an issuer of a fixed income security cannot meet its financial obligations or goes bankrupt. Interest rate risk is the risk that the current market value of a Fund's investments in fixed income securities may fall when interest rates rise, as fixed income security values react inversely to associated interest rates during normal market conditions.

U.S. Government Securities. U.S. government securities are high-quality debt securities issued or guaranteed by the U.S. Treasury or by an agency or instrumentality of the U.S. government. Not all U.S. government securities are backed by the full faith and credit of the United States or guaranteed by the United States Treasury. For example, securities issued by the Farm Credit Banks or by the Federal National Mortgage Association are supported by the instrumentality's right to borrow money from the U.S. Treasury under certain circumstances. Many U.S. Government agency obligations have an implied backing of the U.S. Government, but are not backed by the full faith and credit of the U.S. Government.

Corporate Debt Securities. Corporate debt securities are long- and short-term debt obligations issued by companies (such as publicly issued and privately placed bonds, notes and commercial paper). The Advisor considers corporate debt securities to be of investment grade quality if they are rated BBB or higher by S&P or Baa or higher by Moody's, or if unrated, determined by the Adviser to be of comparable quality. Investment grade debt securities generally have adequate to strong protection of principal and interest payments. For securities on the lower end of this category, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal than for higher-rated securities.

Cash and Cash Equivalents. Each Fund may hold cash or invest in cash equivalents. Cash equivalents include money market funds, commercial paper (for example, short-term notes with maturities typically up to 12 months in length issued by corporations, governmental bodies, or

bank/corporation sponsored conduits (asset-backed commercial paper)); short-term bank obligations (for example, certificates of deposit, bankers' acceptances (time drafts on a commercial bank where the bank accepts an irrevocable obligation to pay at maturity)); or bank notes; savings association and saving bank obligations (for example, bank notes and certificates of deposit issued by savings banks or savings associations); securities of the U.S. government, its agencies, or instrumentalities that mature or may be redeemed in one year or less, and; corporate bonds and notes that mature or that may be redeemed in one year or less.

Foreign Securities. Each Fund may invest in foreign securities. Investing in securities of foreign companies and countries involves certain considerations and risks that are not typically associated with investing in U.S. government securities and securities of domestic companies. There may be less publicly available information about a foreign issuer than a domestic one, and foreign companies are not generally subject to uniform accounting, auditing and financial standards and requirements comparable to those applicable to U.S. companies. There may also be less government supervision and regulation of foreign securities exchanges, brokers and listed companies than exists in the United States. Interest and dividends paid by foreign issuers may be subject to withholding and other foreign taxes, which may decrease the net return on such investments as compared to dividends and interest paid to a Fund by domestic companies or the U.S. government. There may be the possibility of expropriations, seizure or nationalization of foreign deposits, confiscatory taxation, political, economic or social instability or diplomatic developments that could affect assets of a Fund held in foreign countries. The establishment of exchange controls or other foreign governmental laws or restrictions could adversely affect the payment of obligations. In addition, investing in foreign securities will generally result in higher commissions than investing in similar domestic securities.

Decreases in the value of currencies of the foreign countries in which a Fund will invest relative to the U.S. dollar will result in a corresponding decrease in the U.S. dollar value of the Fund's assets denominated in those currencies (and possibly a corresponding increase in the amount of securities required to be liquidated to meet distribution requirements). Conversely, increases in the value of currencies of the foreign countries in which the Fund invests relative to the U.S. dollar will result in a corresponding increase in the U.S. dollar value of the Fund's assets (and possibly a corresponding decrease in the amount of securities to be liquidated).

Depository Receipts. Assets of each Fund may be invested on a global basis to take advantage of investment opportunities both within the United States and other countries. Each Fund may buy foreign securities directly in their principal markets or indirectly through the use of depository receipts. Each Fund may invest in sponsored and unsponsored American Depositary Receipts ("ADRs"), European Depositary Receipts ("EDRs"), and other similar depository receipts. ADRs are issued by an American bank or trust company and represent ownership of underlying securities of a foreign company. EDRs are issued in Europe, usually by foreign banks, and represent ownership of either foreign or domestic underlying securities. The foreign country may withhold taxes on dividends or distributions paid on the securities underlying ADRs and EDRs, thereby reducing the dividend or distribution amount received by shareholders.

Unsponsored ADRs and EDRs are issued without the participation of the issuer of the underlying securities. As a result, information concerning the issuer may not be as current as for sponsored ADRs and EDRs. Holders of unsponsored ADRs generally bear all of the costs of the ADR facilities. The depository of an unsponsored facility frequently is under no obligation to distribute shareholder communications received from the issuer of the deposited securities or to pass through voting rights to the holders of such receipts in respect of the deposited securities. Therefore, there may not be a correlation between information concerning the issuer of the security and the market value of an unsponsored ADR.

Real Estate Investment Trusts. The Fund may invest in securities of real estate investment trusts ("REITs"). REITs are publicly traded corporations or trusts that specialize in acquiring, holding and managing residential, commercial or industrial real estate. A REIT is not taxed at the entity level

on income distributed to its shareholders or unitholders if it distributes to shareholders or unitholders at least 90% of its taxable income for each taxable year and complies with regulatory requirements relating to its organization, ownership, assets and income.

REITs generally can be classified as “Equity REITs,” “Mortgage REITs” and “Hybrid REITs.” An Equity REIT invests the majority of its assets directly in real property and derives its income primarily from rents and from capital gains on real estate appreciation, which are realized through property sales. A Mortgage REIT invests the majority of its assets in real estate mortgage loans and derives its income primarily from interest payments. A Hybrid REIT combines the characteristics of an Equity REIT and a Mortgage REIT. Although the Fund can invest in all three kinds of REITs, its emphasis is expected to be on investments in Equity REITs.

Investments in the real estate industry involve particular risks. The real estate industry has been subject to substantial fluctuations and declines on a local, regional and national basis in the past and may continue to be in the future. Real property values and income from real property may decline due to general and local economic conditions, overbuilding and increased competition, increases in property taxes and operating expenses, changes in zoning laws, casualty or condemnation losses, regulatory limitations on rents, changes in neighborhoods and in demographics, increases in market interest rates, or other factors. Factors such as these may adversely affect companies that own and operate real estate directly, companies that lend to such companies, and companies that service the real estate industry.

Investments in REITs also involve risks. Equity REITs will be affected by changes in the values of and income from the properties they own, while Mortgage REITs may be affected by the credit quality of the mortgage loans they hold. In addition, REITs are dependent on specialized management skills and on their ability to generate cash flow for operating purposes and to make distributions to shareholders or unitholders. REITs may have limited diversification and are subject to risks associated with obtaining financing for real property, as well as to the risk of self-liquidation. REITs also can be adversely affected by their failure to qualify for tax-free pass-through treatment of their income under the Internal Revenue Code of 1986, as amended, or their failure to maintain an exemption from registration under the Investment Company Act of 1940, as amended (the “1940 Act”). By investing in REITs indirectly through the Fund, a shareholder bears not only a proportionate share of the expenses of the Fund, but also may indirectly bear similar expenses of some of the REITs in which it invests.

Borrowing. As required by the 1940 Act, each Fund must maintain continuous asset coverage (total assets, including assets acquired with borrowed funds, less liabilities exclusive of borrowings) of 300% of all amounts borrowed. If, at any time, the value of a Fund’s assets should fail to meet this 300% coverage test, the Fund, within three days (not including Sundays and holidays), will reduce the amount of the Fund’s borrowings to the extent necessary to meet this 300% coverage. Maintenance of this percentage limitation may result in the sale of portfolio securities at a time when investment considerations otherwise indicate that it would be disadvantageous to do so.

In addition to the foregoing, each Fund is authorized to borrow money as a temporary measure for extraordinary or emergency purposes in amounts not in excess of 5% of the value of the Fund’s total assets. This borrowing is not subject to the foregoing 300% asset coverage requirement.

Borrowing may subject each Fund to interest costs, which may exceed the interest received on the securities purchased with the borrowed funds. Each Fund may borrow at times to meet redemption requests rather than sell portfolio securities to raise the necessary cash. Borrowing can involve leveraging when securities are purchased with the borrowed money.

Repurchase Agreements. Each Fund may enter into repurchase agreements with qualified, creditworthy banks or non-bank dealers (“Seller”) as determined by the Adviser. In a repurchase agreement, a Fund buys from the Seller investment-grade securities at one price and the Seller agrees

to repurchase these securities at a later date (usually within one to seven days) for a price equal to the original price paid by the Fund plus an agreed interest payment (“Repurchase Price”). The Seller’s obligation to repurchase the securities is secured by cash, the securities purchased, and/or certain U.S. government securities or U.S. agency guaranteed securities (“Collateral”). The Collateral is held by the Fund’s custodian or a qualified sub-custodian under the Investment Company Act of 1940, as amended (the “1940 Act”) that is a financial intermediary. The Adviser will monitor, on an ongoing basis, the current market value of the Collateral to ensure it always equals or exceeds the Repurchase Price. Each repurchase agreement must at all times be “fully collateralized” as required by Rule 5b-3 under the 1940 Act. Repurchase agreements involve risks that the Seller cannot pay the Repurchase Price (e.g., in the event of a default or insolvency of the Seller) and risks that the net liquidation value of the Collateral is less than the amount needed to repay the Repurchase Price. In addition, the Fund may invest in foreign repurchase agreements. Foreign repurchase agreements may include agreements to purchase and sell foreign securities in exchange for fixed U.S. dollar amounts, or in exchange for specified amounts of foreign currency. In the event of default by the counterparty, the Fund may suffer a loss if the value of the security purchased, i.e., the collateral, in U.S. dollars, is less than the agreed upon repurchase price, or if the Fund is unable to successfully assert a claim to the collateral under foreign laws. As a result, foreign repurchase agreements may involve greater credit risk than repurchase agreements in U.S. markets, as well as risks associated with currency fluctuations. Repurchase agreements with foreign counterparties may have more risk than with U.S. counterparties, since less financial information may be available about the foreign counterparties and they may be less creditworthy.

Each Fund may engage in repurchase agreement transactions to the maximum extent permitted by applicable law.

Loans of Portfolio Securities. Each Fund may make short- and long-term loans of its portfolio securities. To the extent that a lending policy is authorized by the Board and implemented by the Adviser, the Fund may make loans of its portfolio securities in response to requests of broker-dealers or institutional investors which the Adviser deems qualified. In all such cases, the borrower must agree to maintain collateral, in the form of cash or U.S. government obligations, with the Fund on a daily mark-to-market basis in an amount at least equal to 100% of the value of the loaned securities. The Fund will continue to receive dividends or interest on the loaned securities and may terminate such loans at any time or reacquire such securities in time to vote on any matter which the Board determines to be serious. With respect to loans of securities, there is the risk that the borrower may fail to return the loaned securities or that the borrower may not be able to provide additional collateral. No loan of securities will be made if, as a result, the aggregate amount of such loans would exceed 5% of the value of a Fund’s net assets.

Strategic Transactions. Each Fund may utilize a variety of investment strategies to hedge various market risks (such as interest rates, currency exchange rates, and broad specific equity or fixed-income market movements). Such strategies are generally accepted as modern portfolio management and are regularly utilized by many mutual funds and institutional investors. Techniques and instruments may change over time as new instruments and strategies develop and regulatory changes occur.

In the course of pursuing these investment strategies, a Fund may purchase and sell exchange-listed and over-the-counter put and call options on securities, fixed-income indices and other financial instruments, purchase and sell financial futures contracts and options thereon, enter into various interest rate transactions such as swaps, caps, floors or collars, and enter into various currency transactions such as currency forward contracts, currency futures contracts, currency swaps or options on currencies or currency futures (collectively, all the above are called “Strategic Transactions”).

When conducted outside of the United States, Strategic Transactions may not be regulated as rigorously as they are in the United States, may not involve a clearing mechanism and related

guarantees, and are subject to the risk of governmental actions affecting trading in, or the prices of, foreign securities, currencies, and other instruments. The value of such positions could also be adversely affected by: (1) other complex foreign political, legal and economic factors, (2) lesser availability than in the United States of data on which to make trading decisions, (3) delays in a Fund's ability to act upon economic events occurring in foreign markets during non-business hours in the United States, (4) the imposition of different exercise and settlement terms and procedures and margin requirements than in the United States, and (5) lower trading volume and liquidity.

Each Fund's activities involving Strategic Transactions may be limited by the requirements of Subchapter M of the Code for qualification as a regulated investment company.

Derivatives. Rule 18f-4 under the 1940 Act ("Rule 18f-4" or the "Derivatives Rule") governs a Fund's use of derivative instruments and certain other transactions that create future payment and/or delivery obligations by that Fund. Rule 18f-4 permits a Fund to enter into Derivatives Transactions (as defined below) and certain other transactions notwithstanding the restrictions on the issuance of "senior securities" under Section 18 of the 1940 Act. Section 18 of the 1940 Act, among other things, prohibits open-end funds, including the Funds, from issuing or selling any "senior security," other than borrowing from a bank (subject to a requirement to maintain 300% "asset coverage"). In connection with the adoption of Rule 18f-4, the U.S. Securities and Exchange Commission ("SEC") eliminated the asset segregation framework arising from prior SEC guidance for covering Derivatives Transactions and certain financial instruments.

Under Rule 18f-4, "Derivatives Transactions" include the following: (i) any swap, security-based swap (including a contract for differences), futures contract, forward contract, option (excluding purchased options), any combination of the foregoing, or any similar instrument, under which the Fund is or may be required to make any payment or delivery of cash or other assets during the life of the instrument or at maturity or early termination, whether as margin or settlement payment or otherwise; (ii) any short sale borrowing; (iii) reverse repurchase agreements and similar financing transactions, if the Fund elects to treat these transactions as Derivatives Transactions under Rule 18f-4; and (iv) when-issued or forward-settling securities (e.g., firm and standby commitments, including to-be-announced ("TBA") commitments, and dollar rolls) and non-standard settlement cycle securities, unless the Fund intends to physically settle the transaction and the transaction will settle within 35 days of its trade date.

Unless a Fund is relying on the Limited Derivatives User Exception (as defined below), that Fund must comply with Rule 18f-4 with respect to its Derivatives Transactions. Rule 18f-4, among other things, requires the Fund to (i) appoint a Derivatives Risk Manager, (ii) maintain a Derivatives Risk Management Program designed to identify, assess, and reasonably manage the risks associated with Derivatives Transactions; (iii) comply with certain value-at-risk (VaR)-based leverage limits (VaR is an estimate of an instrument's or portfolio's potential losses over a given time horizon and at a specified confidence level); and (iv) comply with certain Board reporting and recordkeeping requirements.

Rule 18f-4 provides an exception from the requirements to appoint a Derivatives Risk Manager, adopt a Derivatives Risk Management Program, comply with certain VaR-based leverage limits, and comply with certain Board oversight and reporting requirements if a Fund's "derivatives exposure" (as defined in Rule 18f-4) is limited to 10% of its net assets (as calculated in accordance with Rule 18f-4) and the Fund adopts and implements written policies and procedures reasonably designed to manage its derivatives risks (the "Limited Derivatives User Exception"). Each Fund is not expected to be able to rely upon this exception.

Pursuant to Rule 18f-4, if a Fund enters into reverse repurchase agreements or similar financing transactions, that Fund will (i) aggregate the amount of indebtedness associated with all of its reverse repurchase agreements or similar financing transactions with the amount of any other "senior

securities” representing indebtedness (e.g., bank borrowings, if applicable) when calculating the Fund’s asset coverage ratio or (ii) treat all such transactions as Derivatives Transactions.

The requirements of Rule 18f-4 may limit a Fund’s ability to engage in Derivatives Transactions as part of its investment strategies. These requirements may also increase the cost of a Fund’s investments and cost of doing business, which could adversely affect the value of that Fund’s investments and/or the performance of that Fund.

Options. Each Fund may purchase and sell options as described herein.

Put and Call Options. A put option gives the purchaser of the option, upon payment of a premium, the right to sell, and the writer the obligation to buy, the underlying security, commodity, index, currency or other instrument at the exercise price. Each Fund may purchase a put option on a security to protect its holdings in the underlying instrument (or, in some cases, a similar instrument) against a substantial decline in market value by giving each Fund the right to sell such instrument at the option exercise price. Such protection is, of course, only provided during the life of the put option when the applicable Fund can sell the underlying security at the put exercise price regardless of any decline in the underlying security’s market price. By using put options in this manner, the applicable Fund will reduce any profit it might otherwise have realized in its underlying security by the premium paid for the put option and by transaction costs.

A call option, upon payment of a premium, gives the purchaser of the option the right to buy, and the seller the obligation to sell, the underlying instrument at the exercise price. A Fund’s purchase of a call option on a security, financial future, index, currency, or other instrument might be intended to protect the Fund against an increase in the price of the underlying instrument. When writing a covered call option, a Fund, in return for the premium, gives up the opportunity to profit from a market increase in the underlying security above the exercise price, but conversely retains the risk of loss should the price of the security decline. If a call option which a Fund has written expires, it will realize a gain in the amount of the premium; however, such gain may be offset by a decline in the market value of the underlying security during the option period. If the call option is exercised, the Fund will realize a gain or loss from the sale of the underlying security.

The premium received is the market value of an option. The premium a Fund will receive from writing a call option, or, which it will pay when purchasing a put option, will reflect, among other things, the current market price of the underlying security, the relationship of the exercise price to such market price, the historical price volatility of the underlying security, the length of the option period, the general supply and demand for credit conditions, and the general interest rate environment. The premium received by a Fund for writing covered call options will be recorded as a liability in its statement of assets and liabilities. This liability will be adjusted daily to the option’s current market value, which will be the last quoted sales price at the time at which the Fund’s net asset value (“NAV”) per share is computed (currently, the close of regular trading on the New York Stock Exchange (“NYSE”)), or, in the absence of such sale, at the mean between the current bid and ask prices on the exchange on which such option is traded. The liability will be extinguished upon expiration of the option, the purchase of an identical option in a closing transaction, or delivery of the underlying security upon the exercise of the option.

The premium paid by a Fund when purchasing a put option will be recorded as an asset in its statement of assets and liabilities. This asset will be adjusted daily to the option’s current market value, which will be the last quoted sales price at the time at which that Fund’s NAV per share is computed, or, in the absence of such sale, at the mean between the current bid and ask prices on the exchange on which such option is traded. The asset will be extinguished upon expiration of the option, the selling (writing) of an identical option in a closing transaction, or the delivery of the underlying security upon the exercise of the option.

The purchase of a put option will constitute a short sale for U.S. federal tax purposes. The purchase of a put at a time when the substantially identical security held long has not exceeded the long-term capital gain holding period could have adverse tax consequences. The holding period of the long position will be cut off so that even if the security held long is delivered to close the put, short term gain will be recognized. If substantially identical securities are purchased to close the put, the holding period of the securities purchased will not begin until the closing date. The holding period of the substantially identical securities not delivered to close the short sale will commence on the closing of the short sale.

A Fund will purchase a call option only to close out a covered call option it has written. It will write a put option only to close out a put option it has purchased. Such closing transactions will be effected in order to realize a profit on an outstanding call or put option, to prevent an underlying security from being called or put, or, to permit the sale of the underlying security.

Furthermore, effecting a closing transaction will permit a Fund to write another call option, or purchase another put option, on the underlying security with either a different exercise price or expiration date or both. If a Fund desires to sell a particular security from its portfolio on which it has written a call option, or purchased a put option, it will seek to effect a closing transaction prior to, or concurrently with, the sale of the security. There is, of course, no assurance that the Fund will be able to effect such closing transactions at a favorable price. If it cannot enter into such a transaction, it may be required to hold a security that it might otherwise have sold, in which case it would continue to be at market risk on the security. This could result in higher transaction costs, including brokerage commissions. A Fund will pay brokerage commissions in connection with the writing or purchase of options to close out previously written options. Such brokerage commissions are normally higher than those applicable to purchases and sales of portfolio securities.

Options written by a Fund will normally have expiration dates between three and nine months from the date written. The exercise price of the options may be below, equal to, or above the current market values of the underlying securities at the time the options are written. From time to time, a Fund may purchase an underlying security for delivery in accordance with an exercise notice of a call option assigned to it, rather than delivering such security from its portfolio. In such cases, additional brokerage commissions will be incurred.

A Fund will realize a profit or loss from a closing purchase transaction if the cost of the transaction is less or more than the premium received from the writing of the option; however, any loss so incurred in a closing purchase transaction may be partially or entirely offset by the premium received from a simultaneous or subsequent sale of a different call or put option. Also, because increases in the market price of a call option will generally reflect increases in the market price of the underlying security, any loss resulting from the repurchase of a call option is likely to be offset in whole or in part by appreciation of the underlying security owned by that Fund.

An American style put or call option may be exercised at any time during the option period while a European style put or call option may be exercised only upon expiration or during a fixed period prior thereto. Each Fund is authorized to purchase and sell exchange-listed options and over-the-counter options ("OTC options"). Exchange-listed options are issued by a regulated intermediary such as the Options Clearing Corporation ("OCC"), which guarantees the performance of the obligations of the parties to such options. The discussion below uses the OCC as an example, but is also applicable to other financial intermediaries.

With certain exceptions, OCC issued and exchange listed options generally settle by physical delivery of the underlying security or currency, although cash settlement may become available in the future. Index options and Eurocurrency instruments are cash settled for the net amount, if any, by which the option is "in-the-money" (i.e., where the value of the underlying instrument exceeds, in the case of a call option, or is less than, in the case of a put option, the exercise price of the option) at the time the option is exercised. Frequently, rather than taking or making delivery of the underlying

instrument through the process of exercising the option, listed options are closed by entering into offsetting purchase or sales transactions that do not result in ownership of the new option.

A Fund's ability to close out its position as a purchaser or seller of an OCC or exchange-listed put or call option is dependent, in part, upon liquidity of the option market. Among the possible reasons for the absence of a liquid option market on an exchange are: (1) insufficient trading interest in certain options; (2) restrictions on transactions imposed by an exchange; (3) trading halts, suspensions or other restrictions imposed with respect to particular classes or series of options or underlying securities including reaching daily price limits; (4) interruption of the normal operations of the OCC or an exchange; (5) inadequacy of the facilities of an exchange or OCC to handle current trading volume; or (6) a decision by one or more exchanges to discontinue the trading of options (or a particular class or series of options), in which event the relevant market for that option on that exchange would cease to exist, although outstanding options on that exchange would generally continue to be exercisable in accordance with their terms.

The hours of trading for listed options may not coincide with the hours during which the underlying financial instruments are traded. To the extent that the option markets close before the markets for the underlying financial instruments, significant price and rate movements can take place in the underlying markets that cannot be reflected in the option markets.

OTC options are purchased from or sold to securities dealers, financial institutions, or other parties ("Counterparties") through a direct bilateral agreement with the Counterparty. In contrast to exchange-listed options, which generally have standardized terms and performance mechanics, all of the terms of an OTC option, including such terms as method of settlement, term, exercise price, premium, guarantees and security, are set by negotiation of the parties. A Fund will only sell OTC options (other than OTC currency options) that are subject to a buy-back provision permitting the Fund to require the Counterparty to sell the option back to the Fund at a formula price within seven days.

Although not required to do so, each Fund generally expects to enter into OTC options that have cash settlement provisions. Unless the parties provide otherwise, there is no central clearing or guaranty function in an OTC option.

As a result, if the Counterparty fails to make or take delivery of the security, currency or other instrument underlying an OTC option it has entered into with a Fund or fails to make a cash settlement payment due in accordance with the terms of that option, that Fund will lose any premium it paid for the option as well as any anticipated benefit of the transaction. Accordingly, the Fund's Adviser must assess the creditworthiness of each such Counterparty or any guarantor or credit enhancement of the Counterparty's credit to determine the likelihood that the terms of the OTC option will be satisfied. The Funds will engage in OTC option transactions only with United States government securities dealers recognized by the Federal Reserve Bank of New York as "primary dealers," or broker dealers, domestic or foreign banks or other financial institutions which have received (or the guarantors of the obligation of which have received) a short-term credit rating of A-1 from S&P or P-1 from Moody's or an equivalent rating from any other nationally recognized statistical rating organization (a "NRSRO").

If a Fund sells a call option, the premium that it receives may serve as a partial hedge against a decrease in the value of the underlying securities or instruments in its portfolio. The premium may also increase that Fund's income. The sale of put options can also provide income.

Each Fund may purchase and sell call options on securities, including U.S. Treasury and agency securities, mortgage-backed securities, corporate debt securities, and Eurocurrency instruments (see "Eurocurrency Instruments" below for a description of such instruments) that are traded in U.S. and foreign securities exchanges and in the over-the-counter markets, and futures contracts. Each Fund may purchase and sell call options on currencies. Even though a Fund will receive the option

premium to help protect them against loss, a call sold by that Fund exposes the Fund during the term of the option to possible loss of opportunity to realize appreciation in the market price of the underlying security or instrument and may require that Fund to hold a security or instrument which they might otherwise have sold.

Each Fund may purchase and sell put options on securities including U.S. Treasury and agency securities, mortgage-backed securities, foreign sovereign debt, corporate debt securities, convertible securities, and Eurocurrency instruments (whether or not a Fund holds the above securities in its portfolio), and futures contracts. Each Fund may not purchase or sell futures contracts on individual corporate debt securities. Each Fund may purchase and sell put options on currencies. In selling put options, there is a risk that a Fund may be required to buy the underlying security at a disadvantageous price above the market price. For U.S. federal income tax purposes, the purchase of a put is treated as a short sale, which may cut off the holding period for the security. Consequently, the purchase of a put is treated as generating gain on securities held less than three months or short-term capital gain (instead of long term) as the case may be.

Options on Securities Indices and Other Financial Indices. Each Fund may also purchase and sell call and put options on securities indices and other financial indices. By doing so, a Fund can achieve many of the same objectives that they would achieve through the sale or purchase of options on individual securities or other instruments. Options on securities indices and other financial indices are similar to options on a security or other instrument except that, rather than settling by physical delivery of the underlying instrument, they settle by cash settlement. For example, an option on an index gives the holder the right to receive, upon exercise of the option, an amount of cash if the closing level of the index upon which the option is based exceeds, in the case of a call, or is less than, in the case of a put, the exercise price of the option. This amount of cash is equal to the excess of the closing price of the index over the exercise price of the option, which also may be multiplied by a formula value.

The seller of the option is obligated, in return for the premium received, to make delivery of this amount. The gain or loss on an option on an index depends on price movements in the instruments making up the market, market segment, industry or any other composite on which the underlying index is based, rather than price movements in individual securities, as is the case with respect to options on securities.

Futures. Each Fund may enter into financial futures contracts or purchase or sell put and call options on such futures as a hedge against anticipated interest rate or currency market changes and for risk management purposes. The use of futures for hedging is intended to protect a Fund from (1) the risk that the value of its portfolio of investments in a foreign market may decline before it can liquidate its interest, or (2) the risk that a foreign market in which it proposes to invest may have significant increases in value before it invests in that market. In the first instance, a Fund will sell a future based upon a broad market index which it is believed will move in a manner comparable to the overall value of securities in that market. In the second instance, a Fund will purchase the appropriate index as an “anticipatory” hedge until it can otherwise acquire suitable direct investments in that market. As with the hedging of foreign currencies, the precise matching of financial futures on foreign indices and the value of the cash or portfolio securities being hedged may not have a perfect correlation. The projection of future market movement and the movement of appropriate indices is difficult, and the successful execution of this short-term hedging strategy is uncertain.

Futures are generally bought and sold on the commodities exchanges where they are listed with payment of initial and variation margin as described below. The sale of a futures contract creates a firm obligation by a Fund, as seller, to deliver to the buyer the specific type of financial instrument called for in the contract at a specific future time for a specified price (or, with respect to index futures and Eurocurrency instruments, the net cash amount). Options on futures contracts are similar to options on securities except that an option on a futures contract gives the purchaser the right in return

for the premium paid to assume a position in a futures contract and obligates the seller to deliver such position.

A Fund's use of financial futures and options thereon will in all cases be consistent with applicable regulatory requirements, particularly the rules and regulations of the Commodity Futures Trading Commission. A Fund will use such techniques only for bona fide hedging, risk management (including duration management) or other portfolio management purposes. Typically, maintaining a futures contract or selling an option thereon requires a Fund to deposit an amount of cash or other specified assets (initial margin), which initially is typically 1% to 10% of the face amount of the contract (but may be higher in some circumstances) with a financial intermediary as security for its obligations. Additional cash or assets (variation margin) may be required to be deposited thereafter daily as the mark-to-market value of the contract fluctuates. The purchase of an option on financial futures involves payment of a premium for the option without any further obligation on the part of the Fund. If a Fund exercises an option on a futures contract, it will be obligated to post initial margin (and potential subsequent variation margin) for the resulting futures position. Futures contracts and options thereon are generally settled by entering into an offsetting transaction, but there can be no assurance that the position can be offset prior to settlement at an advantage price or that delivery will occur.

The Funds will not enter into a futures contract or related option (except for closing transactions) if immediately thereafter, the sum of the amount of its initial margin and premiums on open futures contracts and options thereon would exceed 5% of the respective Fund's total assets (taken at current value); however, in the case of an option that is in-the-money at the time of the purchase, the in-the-money amount may be excluded in calculating the 5% limitation. The segregation requirements with respect to futures contracts and options thereon are described below.

Currency Transactions. Each Fund may engage in currency transactions with counterparties to hedge the value of portfolio holdings denominated in particular currencies against fluctuations in relative value. Currency transactions include forward currency contracts, exchange-listed currency futures, exchange-listed and OTC options on currencies, and currency swaps. A forward currency contract involves a privately negotiated obligation to purchase or sell (with delivery generally required) a specific currency at a future date, which may be any fixed number of days from the date of the contract between the parties, at a specified price. These contracts are traded in the interbank market and conducted directly between currency traders (usually large, commercial banks) and their customers. A forward foreign currency contract generally has no deposit requirement or commissions charges. A currency swap is an agreement to exchange cash flows based on the notional difference among two or more currencies. Currency swaps operate similarly to an interest rate swap (described below). Each Fund may enter into currency transactions with counterparties which have received (or the guarantors of the obligations of which have received) a credit rating of A-1 or P-1 by S&P or Moody's, respectively, or that have an equivalent rating from a NRSRO, or (except for OTC currency options) are determined to be of equivalent credit quality by the Fund's Adviser.

Currency hedging involves some of the same risks and considerations as other transactions with similar instruments. Currency transactions can result in losses to a Fund if the currency being hedged fluctuates in value to a degree or in a direction that is not anticipated. Furthermore, there is the risk that the perceived linkage between various currencies may not be present or may not be present during the particular time a Fund is engaging in proxy hedging (see "Proxy Hedging," below). Cross currency hedges may not be considered "directly related" to the Fund's principal business of investing in stock or securities (or options and futures thereon), resulting in gains there from not qualifying under the "less than 30% of gross income" test of Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code").

Currency transactions are also subject to risks different from those of other portfolio transactions. Because currency control is of great importance to the issuing governments and influences economic planning and policy, purchases and sales of currency and related instruments can be negatively

affected by government exchange controls, blockages, and manipulations or exchange restrictions imposed by governments. These can result in losses to a Fund if it is unable to deliver or receive currency or funds in settlement of obligations and could also cause hedges that Fund has entered into to be rendered useless, resulting in full currency exposure and transaction costs. Buyers and sellers of currency futures are subject to the same risks that apply to the use of futures generally. Furthermore, settlement of a currency futures contract for the purchase of most currencies must occur at a bank based in the issuing nation. Trading options on currency futures is relatively new, and the ability to establish and close out positions on such options is subject to the maintenance of a liquid market which may not always be available. Currency exchange rates may fluctuate based on factors extrinsic to that country's economy. Although forward foreign currency contracts and currency futures tend to minimize the risk of loss due to a decline in the value of the hedged currency, they tend to limit any potential gain which might result should the value of such currency increase.

A Fund's dealings in forward currency contracts and other currency transactions such as futures, options on futures, options on currencies and swaps will be limited to hedging involving either specific transactions ("Transaction Hedging") or portfolio positions ("Position Hedging").

Transaction Hedging. Transaction Hedging occurs when a Fund enters into a currency transaction with respect to specific assets or liabilities. These specific assets or liabilities generally arise in connection with the purchase or sale of that Fund's portfolio securities or the receipt of income there from.

A Fund may use transaction hedging to preserve the United States dollar price of a security when they enter into a contract for the purchase or sale of a security denominated in a foreign currency. That Fund will be able to protect against possible losses resulting from changes in the relationship between the U.S. dollar and foreign currencies during the period between the date the security is purchased or sold and the date on which payment is made or received by entering into a forward contract for the purchase or sale, for a fixed amount of dollars, of the amount of the foreign currency involved in the underlying security transactions.

Position Hedging. Position hedging is entering into a currency transaction with respect to portfolio security positions denominated or generally quoted in that currency. A Fund may use position hedging when that Fund's Adviser believes that the currency of a particular foreign country may suffer a substantial decline against the U.S. dollar. A Fund may enter into a forward foreign currency contract to sell, for a fixed amount of dollars, the amount of foreign currency approximating the value of some or all of its portfolio securities denominated in such foreign currency. The precise matching of the forward foreign currency contract amount and the value of the portfolio securities involved may not have a perfect correlation since the future value of the securities hedged will change as a consequence of market movements between the date the forward contract is entered into and the date it matures. The projection of short-term currency market movement is difficult, and the successful execution of this short-term hedging strategy is uncertain.

Thes Fund will not enter into a transaction to hedge currency exposure to an extent greater, after netting all transactions intended wholly or partially to offset other transactions, than the aggregate market value (at the time of entering into the transaction) of the securities held in their portfolio that are denominated or generally quoted in or currently convertible into such currency, other than with respect to proxy hedging as described below.

Cross Hedging. Each Fund may also cross-hedge currencies by entering into transactions to purchase or sell one or more currencies that are expected to decline in value relative to other currencies to which that Fund has or expects to have portfolio exposure.

Proxy Hedging. To reduce the effect of currency fluctuations on the value of existing or anticipated holdings of portfolio securities, the Funds may also engage in proxy hedging. Proxy hedging is often used when the currency to which a Fund's portfolio is exposed is difficult to hedge

or to hedge against the U.S. dollar. Proxy hedging entails entering into a forward contract to sell a currency whose changes in value are generally considered to be linked to a currency or currencies in which some or all of a Fund's portfolio securities are or are expected to be denominated, and buying U.S. dollars. The amount of the contract would not exceed the value of a Fund's securities denominated in linked currencies. For example, if the Adviser considers that the Swedish krona is linked to the euro, a Fund holds securities denominated in Swedish krona, and the Adviser believes that the value of Swedish krona will decline against the U.S. dollar, the Adviser may enter into a contract to sell euros and buy U.S. dollars.

Combined Transactions. The Funds may enter into multiple transactions, including multiple options transactions, multiple futures transactions, multiple currency transactions (including forward foreign currency contracts) and multiple interest rate transactions and any combination of futures, options, currency and interest rate transactions ("component transactions"), instead of a single Strategic Transaction or when the Adviser believes that it is in a Fund's best interest to do so. A combined transaction will usually contain elements of risk that are present in each of its component transactions. Although combined transactions are normally entered into based on the Adviser's judgment that the combined strategies will reduce risk or otherwise more effectively achieve the desired portfolio management goal, it is possible that the combination will instead increase such risks or hinder achievement of the portfolio management objective.

Eurocurrency Instruments. The Funds may make investments in Eurocurrency instruments. Eurocurrency instruments are futures contracts or options thereon which are linked to the interbank rates offered in financial centers. Eurocurrency futures contracts enable purchasers to obtain a fixed rate for the lending of funds and sellers to obtain a fixed rate for borrowings. A Fund might use Eurocurrency futures contracts and options thereon to hedge against changes in interbank rates, to which many interest rate swaps and fixed income instruments are linked.

Temporary Investments. Each Fund may take temporary defensive measures that are inconsistent with a Fund's normal fundamental or non-fundamental investment policies and strategies in response to adverse market, economic, political, or other conditions as determined by the Adviser. Such measures could include, but are not limited to, investments in (1) highly liquid short-term fixed income securities issued by or on behalf of municipal or corporate issuers, obligations of the U.S. Government and its agencies, commercial paper, and bank certificates of deposit; (2) repurchase agreements involving any such securities; and (3) other money market instruments. Each Fund may also invest in shares of money market mutual funds to the extent permitted under applicable law. Money market mutual funds are investment companies, and the investments in those companies by a Fund are in some cases subject to certain fundamental investment restrictions. As a shareholder in a mutual fund, the Fund will bear their ratable share of their expenses, including management fees, and will remain subject to payment of the fees to the Adviser, with respect to assets so invested. Each Fund may not achieve its investment objectives during temporary defensive periods.

OTHER INVESTMENTS

Initial Public Offerings. Each Fund may participate in the initial public offering ("IPO") market, and a portion of the Fund's returns may be attributed to IPO investments; the impact on the Fund's performance of IPO investments will be magnified if the Fund has a small asset base. Although the IPO market in recent years has been strong, there is no guarantee that it will continue to be so or that suitable IPOs will be available and, as the Fund's assets grow, there is no guarantee that the impact of IPO investing will produce positive performance.

Miscellaneous. The Board may, in the future, authorize the Funds to invest in securities other than those listed in this SAI and in the prospectus, provided that such investments would be consistent with the respective Fund's investment objective and that such investments would not violate the respective Fund's fundamental investment policies or restrictions.

ETF Structure Risks. Each Fund is structured as an ETF and as a result is subject to special risks, including:

- **Trading Issues.** Trading in Shares on the Exchange may be halted due to market conditions or for reasons that, in the view of the Exchange, make trading in Shares inadvisable, such as extraordinary market volatility. There can be no assurance that Shares will continue to meet the listing requirements of the Exchange or will trade with any volume. There is no guarantee that an active secondary market will develop for Shares of each Fund. In stressed market conditions, the liquidity of shares of a Fund may begin to mirror the liquidity of the Fund's underlying portfolio holdings, which can be significantly less liquid than shares of the Fund.
- **Market Price Variance Risk.** The market prices of Shares will fluctuate in response to changes in NAV and supply and demand for Shares and will include a "bid-ask spread" charged by the exchange specialists, market makers or other participants that trade the particular security. There may be times when the market price and the NAV vary significantly. This means that Shares may trade at a discount to NAV.
- **Authorized Participants ("APs"), Market Makers, and Liquidity Providers Risk.** The Fund has a limited number of financial institutions that may act as APs. In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occur, Shares of a Fund may trade at a material discount to NAV and possibly face delisting: (i) APs exit the business or otherwise become unable to process creation and/or redemption orders and no other APs step forward to perform these services, or (ii) market makers and/or liquidity providers exit the business or significantly reduce their business activities and no other entities step forward to perform their functions.
- **Costs of Buying or Selling Shares of the Fund.** Due to the costs of buying or selling Shares of a Fund, including brokerage commissions imposed by brokers and bid/ask spreads, frequent trading of Shares of a Fund may significantly reduce investment results and an investment in shares of the Fund may not be advisable for investors who anticipate regularly making small investments.

INVESTMENT LIMITATIONS

Fundamental. The investment limitations described below have been adopted by the Trust with respect to the Funds and are fundamental ("Fundamental"), *i.e.*, they may not be changed without the affirmative vote of a majority of the outstanding shares of each Fund. As used in the Prospectus and the Statement of Additional Information, the term "majority" of the outstanding shares of each Fund means the lesser of: (1) 67% or more of the outstanding shares of the Fund present at a meeting, if the holders of more than 50% of the outstanding shares of a Fund are present or represented at such meeting; or (2) more than 50% of the outstanding shares of a Fund. Other investment practices which may be changed by the Board without the approval of shareholders to the extent permitted by applicable law, regulation or regulatory policy are considered non-fundamental ("Non-Fundamental").

Each Fund:

1. May not borrow money except as permitted under the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction, from time to time.

2. May not issue senior securities to others, except as permitted under the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction, from time to time.
3. May not underwrite securities issued by others except to the extent a Fund may be deemed to be an underwriter under the federal securities laws, in connection with the disposition of portfolio securities.
4. May not purchase or sell real estate except as permitted under the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction, from time to time.
5. May invest in commodities only as permitted by the 1940 Act or other governing statute, by the Rules thereunder or by the SEC or other regulatory agency with authority over the Fund.
6. May not make loans to others, except as permitted under the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction, from time to time.
7. May not invest more than 25% of the value of its net assets in the securities of one or more issuers conducting their principal business activities in the same industry; except that if the Fund's principal investment objective/strategy is to target the performance of a specific index, the Fund will invest more than 25% of its total assets in securities of issuers in a particular industry to approximately the same extent that the Fund's target index concentrates in the securities of issuers in a particular industry. The limitation against industry concentration does not apply to investments in securities of the U.S. government, its agencies and instrumentalities, or to shares of investment companies; however, the Funds will not invest more than 25% of its net assets in any investment company that so concentrates. In complying with this restriction, the Funds will not consider a bank-issued guaranty or financial guaranty insurance as a separate security.

Further, as a matter of fundamental policy, each Fund shall be a "non-diversified company" as that term is defined in the 1940 Act, as interpreted or modified by regulatory authorities from time to time.

If a percentage or rating restriction on an investment or use of assets set forth herein or in the Prospectus is adhered to at the time a transaction is effected, later changes in such percentages or restrictions resulting from any cause other than actions by the Fund will not be considered a violation. Currently, subject to modification to conform to the 1940 Act as interpreted or modified, each Fund is permitted, consistent with the 1940 Act, to borrow, and pledge its shares to secure such borrowing, provided, that immediately thereafter there is asset coverage of at least 300% for all borrowings by a Fund from a bank. If borrowings exceed this 300% asset coverage requirement by reason of a decline in net assets of a Fund, the Fund will reduce its borrowings within three days (not including Sundays and holidays) to the extent necessary to comply with the 300% asset coverage requirement. The 1940 Act also permits the Funds to borrow for temporary purposes only in an amount not exceeding 5% of the value of the Fund's total assets at the time when the loan is made. A loan shall be presumed to be for temporary purposes if it is repaid within 60 days and is not extended or renewed. To the extent outstanding borrowings of the Fund exceed 5% of the value of the total assets of the Fund, the Fund will not make additional purchases of securities – the foregoing shall not be construed to prevent the Fund from settling portfolio transactions or satisfying shareholder redemptions orders.

Currently, with respect to senior securities, the 1940 Act and regulatory interpretations of relevant provisions of the 1940 Act establish the following general limits, subject to modification to conform to the 1940 Act as interpreted or modified: Open-end registered investment companies such as the Funds are not permitted to issue any class of senior security or to sell any senior security of which they are the issuers. The Trust is, however, permitted to issue separate series of shares and to divide those series into separate classes. Each Fund currently offers one class of shares. The Funds

have no intention of issuing senior securities, except that the Trust has issued its shares in separate series and may divide those series into classes of shares. Collateral arrangements with respect to forward contracts, futures contracts or options, including deposits of initial and variation margin, are not considered to be the issuance of a senior security for purposes of this restriction.

With respect to the Funds' Fundamental Policy #7 as described above, each Fund will consider, to the extent practicable and consistent with applicable rules, regulations of the SEC and applicable guidance from the staff of the SEC, investments of its underlying investment companies when determining its compliance with the policy.

Notwithstanding any of the foregoing limitations, any investment company, whether organized as a trust, association or corporation, or a personal holding company, may be merged or consolidated with or acquired by the Trust, provided that if such merger, consolidation or acquisition results in an investment in the securities of any issuer prohibited by said paragraphs, the Trust shall, within ninety days after the consummation of such merger, consolidation or acquisition, dispose of all of the securities of such issuer so acquired or such portion thereof as shall bring the total investment therein within the limitations imposed by said paragraphs above as of the date of consummation.

MANAGEMENT AND OTHER SERVICES PROVIDERS

Investment Adviser. Applied Finance Advisors, LLC (the "Adviser"), 17806 IH 10, Suite 300, San Antonio, Texas 78257, is the investment adviser to the Funds. The Adviser is registered as an investment adviser under the Investment Advisers Act of 1940, as amended. The Adviser is a privately held, limited liability company. The Adviser is controlled by Paul Blinn and The Applied Finance Group, Ltd. The Applied Finance Group, Ltd. is controlled by Rafael Resendes and Daniel Obrycki.

The Adviser currently provides investment advisory services pursuant to an investment advisory agreement (the "Advisory Agreement"). Under the terms of the Advisory Agreement, the Adviser manages the investment portfolio of the Funds, subject to the policies adopted by the Trust's Board. In addition, the Adviser: (i) furnishes office space and all necessary office facilities, equipment and executive personnel necessary for managing the assets of the Funds; (ii) provides guidance and policy direction in connection with its daily management of the Funds' assets, subject to the authority of the Trust's Board; and (iii) is responsible for oversight of the Sub-Adviser. Under the Advisory Agreement, the Adviser assumes and pays, at its own expense and without reimbursement from the Trust, all ordinary expenses of the Funds, except the fee paid to the Adviser pursuant to the Advisory Agreement, interest expenses, taxes, acquired fund fees and expenses, brokerage commissions and any other portfolio transaction related expenses and fees arising out of transactions effected on behalf of the Funds, credit facility fees and expenses, including interest expenses, and litigation and indemnification expenses and other extraordinary expenses not incurred in the ordinary course of the Funds' business.

For its services with respect to each Fund, the Adviser is entitled to receive an annual management fee, calculated daily and payable monthly as a percentage of each Fund's daily net assets, at the annualized rate of:

Applied Finance IVS US SMID ETF		0.59%
Applied Finance IVS International Large ETF		0.65%
Applied Finance IVS International SMID ETF		0.75%

The Adviser retains the right to use the name "Applied Finance" or any derivative thereof in connection with another investment company or business enterprise with which the Adviser is or

may become associated. The Trust's right to use the name "Applied Finance" or any derivative thereof automatically ceases ninety days after termination of the Advisory Agreement and may be withdrawn by the Adviser on ninety days written notice. The services furnished by the Adviser under the Advisory Agreement are not exclusive, and the Adviser is free to perform similar services for others.

The Advisory Agreement was approved by the Trustees (including all the Independent Trustees) in compliance with the 1940 Act. The Advisory Agreement will continue in force for an initial period of up to two years. Thereafter, the Advisory Agreement is renewable from year to year with respect to each Fund, so long as its continuance is approved at least annually (1) by the vote, cast in person at a meeting called for that purpose, of a majority of those Trustees who are not "interested persons" of the Trust; and (2) by the majority vote of either the full Board or the vote of a majority of the outstanding shares of each Fund. The Advisory Agreement will terminate automatically in the event of its assignment and is terminable at any time without penalty by the Board or by a majority of a Fund's outstanding shares on not less than 60 days' written notice to the Adviser, or by the Adviser on 90 days' written notice to the Trust. The Advisory Agreement provides that the Adviser shall not be protected against any liability to the Trust or its shareholders by reason of willful misfeasance, bad faith, or gross negligence on its part in the performance of its duties or from reckless disregard of its obligations or duties thereunder.

The Adviser may make payments to banks or other financial institutions that provide shareholder services and administer shareholder accounts. If a bank or other financial institution were prohibited from continuing to perform all or a part of such services, management of the Funds believes that there would be no material impact on the Funds or their shareholders. Financial institutions may charge their customers fees for offering these services to the extent permitted by applicable regulatory authorities, and the overall return to those shareholders availing themselves of the financial institution's services will be lower than to those shareholders who do not. Each Fund may purchase securities issued by financial institutions that provide such services; however, in selecting investments for the Funds, no preference will be shown for such securities.

Manager-of-Managers Structure

The Adviser and the Trust have been granted an exemptive order from the SEC that will allow each Fund to operate in a "manager of managers" structure whereby the Adviser, as the Funds' investment adviser, can appoint and replace both wholly owned and unaffiliated sub-advisers, and enter into, amend and terminate sub-advisory agreements with such sub-advisers, each subject to Board approval but without obtaining prior shareholder approval (the "Manager of Managers Structure"). Each Fund will, however, inform shareholders of the hiring of any new sub-adviser within 90 days after the hiring. The SEC exemptive order will provide each Fund with greater efficiency and without incurring the expenses and delays associated with obtaining shareholder approval of sub-advisory agreements with such sub-advisers.

The use of the Manager of Managers Structure with respect to the Funds will be subject to certain conditions that are set forth in the SEC exemptive order. Under the Manager of Managers Structure, the Adviser will have the ultimate responsibility, subject to oversight by the Board, to oversee the sub-advisers and recommend their hiring, termination, and replacement. The Adviser will also, subject to the review and approval of the Board: set each Fund's overall investment strategy; evaluate, select and recommend sub-advisers to manage all or a portion of each Fund's assets; and implement procedures reasonably designed to ensure that each sub-adviser complies with each Fund's investment objective, policies and restrictions. Subject to the review of the Board, the Adviser will allocate and, when appropriate, reallocate each Fund's assets among sub-advisers and monitor and evaluate the sub-advisers' performance.

The Sub-Adviser. The Adviser has retained Tidal Investments, LLC (the “Sub-Adviser”) to serve as sub-adviser for the Funds. The Sub-Adviser has its principal office at 898 N. Broadway, Suite 2, Massapequa, New York 11758. The Sub-Adviser was established in 2012 and provides investment advisory, investment research, and portfolio construction services to ETF clients. No outside companies or individuals currently own more than 25% of the Sub-Adviser’s voting rights. Over 50% of the Sub-Adviser’s voting rights are with employee-members.

Pursuant to an Investment Sub-Advisory Agreement between the Adviser and the Sub-Adviser (the “Sub-Advisory Agreement”), the Sub-Adviser assists the Adviser in providing day-to-day management of each Fund’s portfolio. The Sub-Adviser is responsible for the day-to-day management of the Funds’ trading process, which includes Creation and/or Redemption basket processing. The Sub-Adviser will work directly with the Funds’ Custodian, Transfer Agent and Adviser to carry out the trading process for the Funds. The Sub-Adviser does not select investments for each Fund’s portfolio. See below for description of the services being provided by the Custodian and the Transfer Agent.

The Sub-Advisory Agreement was approved by the Trustees (including all the Independent Trustees) in compliance with the 1940 Act and by each Fund’s initial shareholder. The Sub-Advisory Agreement will continue in force for an initial period of up to two years. Thereafter, the Sub-Advisory Agreement is renewable from year to year with respect to the Funds, so long as its continuance is approved at least annually (1) by the vote, cast in person at a meeting called for that purpose, of a majority of Independent Trustees; and (2) by the majority vote of either the full Board or the vote of a majority of the outstanding shares of a Fund. The Sub-Advisory Agreement will terminate automatically in the event of its assignment, and is terminable at any time without penalty by the Board or by a majority of each of the Fund’s outstanding shares or by the Adviser on not less than 60 days’ written notice to the Sub-Adviser, or by the Sub-Adviser on 90 days’ written notice to the Adviser and the Trust. The Sub-Advisory Agreement provides that the Sub-Adviser shall not be protected against any liability to the Trust or its shareholders by reason of willful misfeasance, bad faith, or gross negligence on its part in the performance of its duties or from reckless disregard of its obligations or duties thereunder.

For its services, the Sub-Adviser is paid a fee by the Adviser, which is calculated daily and payable monthly as a percentage of each Fund’s average daily net assets, in accordance with the following fee schedule:

The greater of: (a) \$23,000 multiplied by the number of ETFs that have commenced operations (“Active ETFs”); or (b) the aggregate management fee rate calculated pursuant to the following schedule:

3.5 basis points for the aggregate AUM for Active ETFs less or equal to \$500 million;

3.0 basis points for aggregate AUM for active ETFs greater than \$500 million.

Portfolio Managers. As described in the prospectus, Paul Blinn and Rafael Resendes, from the Adviser, and Andy Hicks and Qiao Duan, CFA from the Sub-Adviser, serve as the Fund’s Portfolio Managers and they are responsible for the day-to-day investment management of the Funds. In addition to the Funds, the Portfolio Managers are responsible for the day-to-day management of certain other accounts, as listed below. The information below is provided as of August 31, 2025:

Portfolio Manager	Other Registered Investment Company Accounts	Assets Managed (\$ millions)	Other Pooled Investment Vehicle Accounts	Assets Managed (\$ millions)	Other Accounts	Assets Managed (\$ millions)	Total Assets Managed (\$ millions)
Paul Blinn	4	1,914.2	0	0	0	0	1,914.2
Rafael Resendes	4	1,914.2	0	0	0	0	1,914.2
Andy Hicks	0	0	0	0	0	0	0
Qiao Duan	115	20,714.5	0	0	0	0	20,714.5

Conflicts of Interests. The Portfolio Managers’ management of “other accounts” may give rise to potential conflicts of interest in connection with their management of the Fund’s investments, on the one hand, and the investments of the other accounts, on the other. The other accounts may have the same investment objective as the Fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby a Portfolio Manager could favor one account over another. Another potential conflict could include a Portfolio Manager’s knowledge about the size, timing and possible market impact of Fund trades, whereby a Portfolio Manager could use this information to the advantage of other accounts and to the disadvantage of the Fund. However, the Adviser and the Sub-Adviser have established policies and procedures to ensure that the purchase and sale of securities among all accounts it manages are fairly and equitably allocated.

Compensation. Messrs. Blinn and Resendes do not receive compensation that is based upon the pre- or after-tax performance of the Fund; however, Messrs. Blinn and Resendes, on behalf of the Adviser, may receive compensation that is based upon the pre- or after-tax performance of certain private funds. Mr. Hicks and Ms. Duan do not receive compensation that is based upon the pre- or after-tax performance of the Funds; however, Mr. Hicks and Ms. Duan, on behalf of the Sub-Adviser, may enter into incentive fee arrangements with its other non-Fund related client accounts. The Portfolio Managers do not receive any special or additional compensation from the Adviser or the Sub-Adviser, respectively, for their services as Portfolio Managers. The Portfolio Managers compensation is based solely on the overall financial operating results of the Adviser or the Sub-Adviser, respectively. Each Portfolio Manager may receive compensation from the Adviser and the Sub-Adviser, as applicable for their respective services to each firm.

Portfolio Manager Share Ownership. As of the date of this SAI, the Portfolio Managers did not beneficially own shares of the Funds.

Administrator. Pursuant to a Fund Services Agreement, Commonwealth Fund Services, Inc., 8730 Stony Point Parkway, Suite 205, Richmond, Virginia 23235 (the “Administrator”) serves as the Funds’ administrator. In its capacity as administrator, the Administrator supervises all aspects of the operations of the Funds except those performed by the Adviser. The Administrator provides certain administrative services and facilities to the Funds, including, among other responsibilities, assisting in the preparation and filing of documents required for compliance by the Funds with applicable laws and regulations and arranging for the maintenance of books and records of the Funds. The Administrator receives an asset-based fee computed daily and paid monthly on the average daily net assets of the Funds, subject to a minimum fee plus out-of-pocket expenses.

Fund Accountant and Other Services. Pursuant to a Services Agreement with Citi Fund Services Ohio, Inc., located at 4400 Easton Commons, Suite 200, Columbus, Ohio 43219, Citi provides certain

financial administration services (other than those provided by the Administrator), and fund accounting services to the Applied Finance IVS US SMID ETF. As financial administrator, Citi performs services including but not limited to: (1) calculating Fund expenses; (2) calculating the Fund performance data; and (3) providing certain compliance support services. As fund accountant, Citi maintains certain financial records of the Trust and provides accounting services to the Fund that include the daily calculation of the Fund's NAV. Citi also performs certain other services on behalf of the Trust including providing financial information for the Trust's federal and state tax returns and financial reports required to be filed with the SEC.

For the financial administration and fund accounting services provided to the Trust, the Trust has agreed to pay to Citi an annual asset based fee as a percentage of the aggregate net assets of the Fund, subject to certain breakpoints and minimum fee requirements. Citi is also entitled to fees for services that it renders with respect to the filing of Form N-PORT, its services related to liquidity risk management and out-of-pocket expenses.

Pursuant to a Services Agreement with U.S. Bancorp Global Fund Services ("US Bank"), with principal offices at 615 East Michigan Street, Milwaukee, Wisconsin 53202,, US Bank provides certain financial administration services (other than those provided by the Administrator), and fund accounting services to the Applied Finance IVS International Large ETF and the Applied Finance IVS International SMID ETF. As financial administrator, US Bank performs services including but not limited to: (1) calculating Fund expenses; (2) calculating the Fund performance data; and (3) providing certain compliance support services. As fund accountant, US Bank maintains certain financial records of the Trust and provides accounting services to the Fund that include the daily calculation of each Fund's NAV. US Bank also performs certain other services on behalf of the Trust including providing financial information for the Trust's federal and state tax returns and financial reports required to be filed with the SEC.

For the financial administration and fund accounting services provided to the Trust, the Trust has agreed to pay to US Bank an annual asset based fee as a percentage of the aggregate net assets of the Fund, subject to certain breakpoints and minimum fee requirements. US Bank is also entitled to fees for services that it renders with respect to the filing of Form N-PORT, its services related to liquidity risk management and out-of-pocket expenses.

Custodian and Transfer Agent. Pursuant to a Custodial and Agency Services Agreement with the Trust, Citibank N.A. ("Custodian"), located at 4400 Easton Commons, Suite 200, Columbus, Ohio 43219, serves as transfer agent and custodian for the Applied Finance IVS US SMID ETF and safeguards and holds the Fund's cash and securities, settles the Fund's securities transactions and collects income on the Fund's investments. Under the agreement, the Custodian also: (1) provides data required by the Adviser to determine the Fund's Creation Basket and estimated All Cash Amount for each Business Day; (2) monitors the settlement of securities comprising the Creation Basket and any cash in connection with the purchase and redemption of Creation Units and requests the issuance of related Creation Units; (3) deposits securities comprising the Creation Basket and/or cash received from Authorized Participants in connection with purchases of Creation Units into the Fund's custody and cash accounts; (4) disburses securities comprising the Creation Basket and/or cash from the Fund's custody and cash accounts to Authorized Participants in connection with the redemptions of Creation Units; and (5) performs certain other related services, (See "Purchase and Redemption of Creation Units," below). As transfer agent, the Custodian issues shares of the Fund in Creation Units to fill purchase orders for the Fund's shares, maintains records of the issuance and redemption of the Fund's shares, and acts as the Fund's dividend disbursing agent.

Pursuant to a Custodial and Agency Services Agreement with the Trust, U.S. Bank National Association ("Custodian"), located at 615 East Michigan Street, Milwaukee, Wisconsin 53202, serves as transfer agent and custodian for the Applied Finance IVS International Large ETF and the

Applied Finance IVS International SMID ETF and safeguards and holds each Fund's cash and securities, settles each Fund's securities transactions and collects income on each Fund's investments. Under the agreement, the Custodian also: (1) provides data required by the Adviser to determine each Fund's Creation Basket and estimated All Cash Amount for each Business Day; (2) monitors the settlement of securities comprising the Creation Basket and any cash in connection with the purchase and redemption of Creation Units and requests the issuance of related Creation Units; (3) deposits securities comprising the Creation Basket and/or cash received from Authorized Participants in connection with purchases of Creation Units into each Fund's custody and cash accounts; (4) disburses securities comprising the Creation Basket and/or cash from each Fund's custody and cash accounts to Authorized Participants in connection with the redemptions of Creation Units; and (5) performs certain other related services, (See "Purchase and Redemption of Creation Units," below). As transfer agent, the Custodian issues shares of each Fund in Creation Units to fill purchase orders for each Fund's shares, maintains records of the issuance and redemption of the Fund's shares, and acts as each Fund's dividend disbursing agent.

Distributor and Principal Underwriter. Foreside Fund Services, LLC a wholly-owned subsidiary of Foreside Financial Group, LLC (dba ACA Group) (the "Distributor") the Funds' distributor, is located at 190 Middle Street, Suite 301, Portland, Maine 04101. The Distributor is a broker-dealer registered under the Securities Exchange Act of 1934, as amended (the "1934 Act"), and a member of the Financial Industry Regulatory Authority, Inc. ("FINRA").

Shares will be continuously offered for sale by the Trust through the Distributor only in whole Creation Units, as described in the section of this SAI entitled "Additional Information About Purchases and Sales." The Distributor also acts as an agent for the Trust. The Distributor will deliver a prospectus to persons purchasing Shares in Creation Units and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor has no role in determining the investment policies of the Funds or which securities are to be purchased or sold by the Funds.

Distribution Plan

The Trust has adopted a distribution and shareholder service plan (the "Plan") with respect to the Funds in accordance with the provisions of Rule 12b-1 under the Investment Company Act, which regulates circumstances under which an investment company may directly or indirectly bear expenses relating to the distribution of its shares. There is no current intention to charge such fees pursuant to the Plan. Continuance of the Plan must be approved annually by a majority of the Trustees of the Trust and by a majority of the independent Trustees who have no direct or indirect financial interest in the Plan or in any agreements related to the Plan ("Qualified Trustees"). The Plan requires that quarterly written reports of amounts spent under the Plan and the purposes of such expenditures be furnished to and reviewed by the Trustees. The Plan may not be amended to increase materially the amount that may be spent thereunder without approval by a majority of the outstanding shares of each Fund. All material amendments of the Plan will require approval by a majority of the Trustees of the Trust and of the Qualified Trustees.

The Plan provides that each Fund may pay the Distributor or certain other parties an annual fee of up to a maximum of 0.25% of the average daily net assets of the Shares. Under the Plan, the Distributor or a Fund may make payments pursuant to written agreements to financial institutions and intermediaries such as banks, savings and loan associations and insurance companies including, without limit, investment counselors, broker-dealers and the Distributor's affiliates and subsidiaries (collectively, "Agents") as compensation for services and reimbursement of expenses incurred in connection with distribution assistance. The Plan is characterized as a compensation plan since the distribution fee will be paid to the Distributor or other parties without regard to the distribution expenses incurred by the Distributor or other parties or the amount of payments made to other financial institutions and intermediaries. The Adviser pays the Distributor a fee for certain

distribution related services. The Trust intends to operate the Plan in accordance with its terms and with FINRA rules concerning sales charges.

Under the Plan, subject to the supervision of the Trustees of the Trust, the Trust may, directly or indirectly, engage in any activities primarily intended to result in the sale of Shares of a Fund of the class(es) of Shares identified in Section 2(a) of this Plan, which activities may include, but are not limited to, the following:

- (a) payments to the Trust's distributor (the "Distributor") and to securities dealers and others in respect of the sale of Shares of the Fund;

- (b) payment of compensation to and expenses of personnel (including personnel of organizations with which the Trust has entered into agreements related to this Plan) who engage in or support distribution of Shares of the Fund or who render shareholder support services not otherwise provided by the Trust's transfer agent, administrator, or custodian, including but not limited to, answering inquiries regarding the Trust, processing shareholder transactions, providing personal services and/or the maintenance of shareholder accounts, providing other shareholder liaison services, responding to shareholder inquiries, providing information on shareholder investments in the Shares of the Fund, and providing such other distribution and shareholder services as the Trust may reasonably request, arranging for bank wires, assisting shareholders in changing dividend options, account designations and addresses, providing information periodically to shareholders showing their positions in the Fund, forwarding communications from the Fund such as proxies, shareholder reports, annual reports, and dividend distribution and tax notices to shareholders, processing purchase, exchange, and redemption requests from shareholders and placing orders with the Fund or its service providers;

- (c) formulation and implementation of marketing and promotional activities, including, but not limited to, direct mail promotions and television, radio, newspaper, magazine and other mass media advertising;

- (d) preparation, printing and distribution of sales literature;

- (e) preparation, printing and distribution of prospectuses and statements of additional information and reports of the Trust for recipients other than existing shareholders of the Trust;

- (f) obtaining information and providing explanations to wholesale and retail distributors of contracts regarding Fund investment objectives and policies and other information about the Fund, including the performance of the Fund;

- (g) obtaining such information, analyses and reports with respect to marketing and promotional activities as the Trust may, from time to time, deem advisable.

The Trust is authorized to engage in the activities listed above, and in any other activities primarily intended to result in the sale of Shares of a Fund, either directly or through other persons with which the Trust has entered into agreements related to this Plan.

The Adviser and its affiliates may, out of their own resources, pay amounts to third parties for distribution or marketing services on behalf of a Fund. The making of these payments could create a conflict of interest for a financial intermediary receiving such payments.

Legal Counsel. Practus, LLP, 11300 Tomahawk Creek Parkway, Suite 310, Leawood, Kansas 66211, serves as legal counsel to the Trust and the Funds.

Independent Registered Public Accounting Firm. The Funds' independent registered public accounting firm, Cohen & Company, Ltd. audits the Funds' annual financial statements, as assists in the preparation of certain reports to the SEC. Cohen & Co Advisory, LLC, an affiliate of Cohen & Company, Ltd., prepares the Trust's tax returns. Cohen & Company, Ltd. is located at 1350 Euclid Avenue, Suite 800, Cleveland, Ohio 44115.

TRUSTEES AND OFFICERS OF THE TRUST

Trustees and Officers. The Trust is governed by the Board, which is responsible for protecting the interests of shareholders. The trustees are experienced businesspersons who meet throughout the year to oversee the Trust's activities, review contractual arrangements with companies that provide services to the Fund and review performance. The names, addresses and ages of the trustees and officers of the Trust, together with information as to their principal occupations during the past five years, are listed below.

Each Trustee was nominated to serve on the Board of Trustees based on their particular experiences, qualifications, attributes and skills. Generally, the Trust believes that each Trustee is competent to serve because of their individual overall merits including: (i) experience; (ii) qualifications; (iii) attributes; and (iv) skills.

Ms. Mary Lou H. Ivey has business experience as a practicing tax accountant from 1996 to 2021 and, as such, brings tax, budgeting and financial reporting skills to the Board. Currently, Ms. Ivey serves as the Executive Officer for the Episcopal Church Building Fund since 2025 utilizing her financial knowledge and skills. Prior to her position as Executive Officer for the Episcopal Church Building Fund, Ms. Ivey serves as Chief Financial Officer for the Episcopal Church Building Fund from 2022 to 2025.

Mr. Theo H. Pitt, Jr. has experience as an investor, including his role as trustee of several other investment companies and business experience as Senior Partner of a financial consulting company, as a partner of a real estate partnership and as an Account Administrator for a money management firm.

Dr. David J. Urban is Dean Emeritus and Professor of Marketing at the Jones College of Business, Middle Tennessee State University. He earned a Ph.D. in Business Administration with a concentration in Marketing from the University of Michigan. Dr. Urban also holds a master's degree in Psychology from the University of Michigan and an undergraduate degree in Commerce with a concentration in Marketing from the University of Virginia. His extensive career is marked by significant budget responsibility and accountability, with expertise in marketing, strategic planning, organizational leadership, and management contributing to the Board's long-term goal setting.

The Trust does not believe any one factor is determinative in assessing a Trustee's qualifications, but that the collective experience of each Trustee makes them each highly qualified.

The Chairman of the Board of Trustees is Ms. Ivey, who is not an "interested person" of the Trust, within the meaning of the 1940 Act. The Trust also has an independent Audit Committee that allows the Board to access the expertise necessary of oversee the Trust, identify risks, recognize shareholder concerns and needs and highlight opportunities. The Audit Committee is able to focus Board time and attention to matters of interest to shareholders and, through its private sessions with the Trust's auditor, Chief Compliance Officer and legal counsel, stay fully informed regarding management decisions.

ETFs face a number of risks, including investment risk, compliance risk and valuation risk. The Board oversees management of the Fund's risks directly and through its officers. While day-to-day risk management responsibilities rest with the Fund's Chief Compliance Officer, investment advisers and other service providers, the Board monitors and tracks risk by: (1) receiving and reviewing quarterly reports related to the performance and operations of the Fund; (2) reviewing and approving, as applicable, the compliance policies and procedures of the Trust, including the Trust's valuation policies and transaction procedures; (3) periodically meeting with the portfolio manager to review investment strategies, techniques and related risks; (4) meeting with representatives of key service providers, including the Fund's investment advisers, administrator, distributor, transfer agent and the independent registered public accounting firm, to discuss the activities of the Fund; (5) engaging the services of the Chief Compliance Officer of the Fund to monitor and test the compliance procedures of the Trust and its service providers; (6) receiving and reviewing reports from the Trust's independent registered public accounting firm regarding the Fund's financial condition and the Trust's internal controls; and (7) receiving and reviewing an annual written report prepared by the Chief Compliance Officer reviewing the adequacy of the Trust's compliance policies and procedures and the effectiveness of their implementation. The Board has concluded that its general oversight of the Adviser and other service providers as implemented through the reporting and monitoring process outlined above allows the Board to effectively administer its risk oversight function.

Following is a list of the Trustees and executive officers of the Trust and their principal occupation over the last five years. The mailing address of each Trustee and officer is 8730 Stony Point Parkway, Suite 205, Richmond, Virginia, 23235, unless otherwise indicated.

Secretary		
Holly B. Giangiolio 1962 Assistant Secretary	Indefinite, Since December 2019	Managing Director, Corporate Operations, Commonwealth Fund Services, Inc., January 2015 to present.
Soth Chin 1966 Chief Compliance Officer	Indefinite, Since March 2023	Managing Member of Fit Compliance, LLC (financial services compliance and consulting firm) since October 2016.
Julian G. Winters 1968 Assistant Chief Compliance Officer	Indefinite, Since March 2023	Managing Member of Watermark Solutions, LLC (investment compliance and consulting firm) since March 2007.
Thomas A. Carter 1966 Vice President	Indefinite, Since December 2019	President Ridgeline Research September 2019 through present.
Laura Wright 1972 Assistant Secretary	Indefinite, Since July 2022	Manager, Fund Administration, Commonwealth Fund Services, Inc., August 2023 to present, Fund Administrator, Commonwealth Fund Services, Inc., 2016 to 2023.
J. Stephen King 1962 Assistant Secretary	Indefinite, Since September 2022	Attorney, Practus, LLP (law firm), 2020 to present.
Robert Rhatigan 1982 Assistant Secretary	Indefinite, Since October 2025	Attorney, Practus, LLP (law firm), 2024 to present. Attorney, Dechert LLP from 2012 to 2024.

BOARD OF TRUSTEES

The Board of Trustees oversees the Trust and certain aspects of the services provided by the Adviser and the Funds' other service providers. Each Trustee will hold office until their successors have been duly elected and qualified or until their earlier resignation or removal. Each officer of the Trust serves at the pleasure of the Board and for a term of one year or until their successors have been duly elected and qualified.

The Trust has a standing Audit Committee of the Board composed of Ms. Ivey, Mr. Pitt, and Dr. Urban. The functions of the Audit Committee are to meet with the Trust's independent auditors to review the scope and findings of the annual audit, discuss the Trust's accounting policies, discuss any recommendations of the independent auditors with respect to the Trust's management practices, review the impact of changes in accounting standards on the Trust's financial statements, recommend to the Board the selection of independent registered public accounting firm, and perform such other duties as may be assigned to the Audit Committee by the Board. The Audit Committee met eight times during the 12-month period ended December 31, 2024.

The Nominating and Corporate Governance Committee is comprised of Ms. Ivey, Mr. Pitt, and Dr. Urban. The Nominating and Corporate Governance Committee's purposes, duties and powers are set forth in its written charter, which is described in Exhibit C – the charter also describes the process by which shareholders of the Trust may make nominations. The Nominating and Corporate Governance Committee met three times during the 12-month period ended December 31, 2024.

The Qualified Legal Compliance Committee is comprised of Ms. Ivey, Mr. Pitt, and Dr. Urban. The Qualified Legal Compliance Committee receives, investigates, and makes recommendations as to the appropriate remedial action in connection with any report of evidence of a material violation of the securities laws or breach of fiduciary duty or similar violation by the Trust, its officers, Trustees, or agents. The Qualified Legal Compliance Committee did not meet during the 12-month period ended December 31, 2024.

Trustee Compensation. Each Trustee who is not an “interested person” of the Trust may receive compensation for their services to the Trust. All Trustees are reimbursed for any out-of-pocket expenses incurred in connection with attendance at meetings. Effective January 1, 2025, each Trustee receives a retainer fee at the annual rate of \$74,000 and the Independent Chairperson will receive an additional annual fee of \$5,000, paid quarterly. Annual fees may be adjusted quarterly based on the number of operating funds in the Trust. Additionally, each Trustee may receive a fee of \$2,500 per special meeting. Compensation to be received by each Trustee from the Trust for the Funds’ first fiscal year is estimated as follows:

Name of Person / Position	Aggregate Compensation From Fund	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation From Fund and Fund Complex Paid To Trustees ^(*)(1)
Mary Lou H. Ivey, Trustee	\$2,253	\$0	\$0	\$9,013
Theo H. Pitt, Jr., Trustee	\$2,187	\$0	\$0	\$8,747
Dr. David J. Urban, Trustee	\$2,187	\$0	\$0	\$8,747

* The Trust does not pay deferred compensation.

(1) The “Fund Complex” consists of the Funds and all the series of the Trust that are managed by the Adviser.

Trustee Ownership of Fund Shares – The table below shows for each Trustee, the amount of Fund equity securities beneficially owned by each Trustee, and the aggregate value of all investments in equity securities of the Fund of the Trust, as of December 31, 2024, and stated as one of the following ranges: A = None; B = \$1-\$10,000; C = \$10,001-\$50,000; D = \$50,001-\$100,000; and E = over \$100,000.

Sales Loads. No front-end or deferred sales charges are applied to purchase of Fund shares by current or former trustees, officers, employees or agents of the Trust, the Adviser, the Sub-Adviser or the principal underwriter and by the members of their immediate families. No front-end or deferred sales charges are applied to the purchase of Shares.

Policies Concerning Personal Investment Activities. The Fund, the Adviser and the Sub-Adviser have each adopted a Code of Ethics, pursuant to Rule 17j-1 under the 1940 Act that permit investment personnel, subject to their particular code of ethics, to invest in securities, including securities that may be purchased or held by the Fund, for their own account. The Codes of Ethics are on file with and available on the EDGAR Database on the SEC’s Internet website at

CONTROL PERSONS AND PRINCIPAL SECURITIES HOLDERS

A principal shareholder is any person who owns (either of record or beneficially) 5% or more of the outstanding shares of the Funds. A control person is one who owns, either directly or indirectly, more than 25% of the voting securities of the Funds or acknowledges the existence of such control. As a controlling shareholder, each of these persons could control the outcome of any proposal submitted to the shareholders for approval, including changes to a Fund's fundamental policies or the terms of the management agreement with the Adviser. Since the economic benefit of investing in an ETF is passed through to the underlying investors of the record owners of 25% or more of the Fund shares, these record owners are not considered the beneficial owners of the Fund's shares or control persons of the Fund.

The Funds have not yet commenced operations as of the date of this SAI.

DETERMINATION OF NET ASSET VALUE

Calculation of Share Price

The NAV of each Fund's shares is determined by dividing the total value of the Fund's portfolio investments and other assets, less any liabilities, by the total number of shares outstanding of the Fund. Shares are valued at the close of regular trading on the Exchange (normally 4:00 p.m., Eastern time) (the "Exchange Close") on each day that the Exchange is open. For purposes of calculating the NAV, a Fund normally use pricing data for domestic equity securities received shortly after the Exchange Close and does not normally take into account trading, clearances or settlements that take place after the Exchange Close. Domestic fixed income and foreign securities are normally priced using data reflecting the earlier closing of the principal markets for those securities. Information that becomes known to a Fund or its agents after the NAV has been calculated on a particular day will not generally be used to retroactively adjust the price of the security or the NAV determined earlier that day.

Generally, a Fund's domestic securities (including underlying ETFs which hold portfolio securities primarily listed on foreign (non-U.S.) exchanges) are valued each day at the last quoted sales price on each security's primary exchange. Securities traded or dealt in upon one or more securities exchanges for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid and ask prices on such exchange. If market quotations are not readily available, securities will be valued at their fair market value as determined in good faith by the Valuation Designee (as defined below). Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market.

Certain securities or investments for which daily market quotes are not readily available may be valued, pursuant to methodologies established by the Board. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) approved by the Board based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity. Short-term investments having a maturity of 60 days or less may be generally valued at amortized cost when it approximates fair value.

Exchange traded options are valued at the last quoted sales price or, in the absence of a sale, at the mean between the current bid and ask prices on the exchange on which such options are traded. Futures and options on futures are valued at the settlement price determined by the exchange, or, if no settlement price is available, at the last sale price as of the close of business prior to when a Fund calculates NAV. Other securities for which market quotes are not readily available are valued at fair value as determined in good faith by the Valuation Designee (as defined below). Swap agreements and other derivatives are generally valued daily depending on the type of instrument and reference assets based upon market prices, the mean between bid and asked price quotations from market makers or by a pricing service or Valuation Designee (as defined below) in accordance with the valuation procedures approved by the Board.

Under certain circumstances, the Funds may use an independent pricing service approved by the Board to calculate the fair market value of foreign equity securities on a daily basis by applying valuation factors to the last sale price or the mean price as noted above. The fair market values supplied by the independent pricing service will generally reflect market trading that occurs after the close of the applicable foreign markets of comparable securities or the value of other instruments that have a strong correlation to the fair-valued securities. The independent pricing service will also take into account the current relevant currency exchange rate. A security that is fair valued may be valued at a price higher or lower than actual market quotations or the value determined by other funds using their own fair valuation procedures. Because foreign securities may trade on days when Shares are not priced, the value of securities held by a Fund can change on days when Shares cannot be redeemed or purchased. In the event that a foreign security's market quotations are not readily available or are deemed unreliable (for reasons other than because the foreign exchange on which it trades closed before a Fund's calculation of NAV), the security will be valued at its fair market value as determined in good faith by the Fund's Valuation Designee (as defined below). In addition, because the Funds may invest in underlying ETFs which hold portfolio securities primarily listed on foreign (non-U.S.) exchanges, and these exchanges may trade on weekends or other days when the underlying ETFs do not price their shares, the value of these portfolio securities may change on days when you may not be able to buy or sell Shares.

Investments initially valued in currencies other than the U.S. dollar are converted to U.S. dollars using exchange rates obtained from pricing services or other parties in accordance with the valuation procedures approved by the Board. As a result, the NAV of the Shares may be affected by changes in the value of currencies in relation to the U.S. dollar. The value of securities traded in markets outside the United States or denominated in currencies other than the U.S. dollar may be affected significantly on a day that the Exchange is closed and an investor is not able to purchase, redeem or exchange Shares.

Investments for which market quotations are not readily available are valued at fair value as determined in good faith pursuant to Rule 2a-5 under the 1940 Act. As a general principle, the fair value of a security or other asset is the price that would be received upon the sale of the security or asset in an orderly transaction between market participants at the measurement date and time. Pursuant to Rule 2a-5, the Board has designated the Adviser as the valuation designee ("Valuation Designee") for the Funds to perform fair value determinations relating to all Fund investments. The Adviser may carry out its designated responsibilities as Valuation Designee through a fair valuation committee, and may apply fair valuation methodologies approved by the Board, or utilize prices or inputs from pricing services, quotation reporting systems, valuation agents and other third-party sources that have been approved by the Board.

Fair valuation may require subjective determinations about the value of a security. While the Funds' and Valuation Designee's policies and procedures are intended to result in a calculation of each Fund's NAV that fairly reflects security values as of the time of pricing, the Fund cannot ensure that fair values accurately reflect the price that the Fund could obtain for a security if it were to

dispose of that security as of the time of pricing (for instance, in a forced or distressed sale). The prices used by each Fund may differ from the value that would be realized if the securities were sold.

ADDITIONAL INFORMATION ABOUT PURCHASES AND SALES

PURCHASE AND REDEMPTION OF CREATION UNITS

Creation Units

The Trust issues and sells Shares of the Funds only in Creation Units on a continuous basis on any business day through the Distributor at the Shares' NAV next determined after receipt of an order in proper form. The Distributor processes purchase orders only on a day that the Exchange is open for trading (a "Business Day").

Generally, the Trust will issue and redeem Creation Units at NAV for "in kind" consideration, meaning the initiator of a creation or redemption order will deposit or receive as consideration a portfolio of all or some of the securities held in the relevant Fund's portfolio, plus a cash amount (an "In Kind Creation" and "In Kind Redemption"). At the discretion of the Adviser, the Fund may elect at any time, and from time to time, that the consideration for the purchase and redemption of Creation Units will be made entirely in a cash amount equal to the NAV of the shares that constitute the Creation Unit(s) (an "All Cash Amount").

Creation Orders

The consideration for an In Kind Creation generally consists of the Deposit Securities for each Creation Unit constituting a substantial replication, or representation, of the securities included in a Fund's portfolio as selected by the Adviser ("Fund Securities") and the Cash Component computed as described below. Together, the Deposit Securities and the Cash Component constitute the "Fund Deposit," which represents the minimum investment amount for a Creation Unit of a Fund. The Cash Component serves to compensate the Trust or the Authorized Participant, as applicable, for any differences between the NAV per Creation Unit and the Deposit Amount (as defined below). The Cash Component is an amount equal to the difference between the NAV of the Fund Shares (per Creation Unit) and the "Deposit Amount," an amount equal to the market value of the Deposit Securities. If the Cash Component is a positive number (i.e., the NAV per Creation Unit exceeds the Deposit Amount), the Authorized Participant will deliver the Cash Component. If the Cash Component is a negative number (i.e., the NAV per Creation Unit is less than the Deposit Amount), the Authorized Participant will receive the Cash Component.

In addition, the Trust reserves the right to permit or require the substitution of an amount of cash (that is a "cash in lieu" amount) to be added to the Cash Component to replace any Deposit Security which may not be available in sufficient quantity for delivery or that may not be eligible for transfer through the systems of DTC or the Clearing Process (discussed below) or for other similar reasons. The Trust also reserves the right to permit or require a "cash in lieu" amount where the delivery of Deposit Securities by the Authorized Participant (as described below) would be restricted under the securities laws or where delivery of Deposit Securities to the Authorized Participant would result in the disposition of Deposit Securities by the Authorized Participant becoming restricted under the securities laws, and in certain other situations.

The Custodian, through the NSCC (see the section of this SAI entitled "Purchase and Redemption of Creation Units—Procedures for Creation of Creation Units"), makes available on each Business Day, prior to the opening of business on the Exchange (currently 9:30 a.m. New York time), the list of the name and the required number of shares of each Deposit Security (if any) to be included in the current Fund Deposit (based on information at the end of the previous Business Day) for the Funds. This Fund Deposit is applicable, subject to any adjustments as described below, to

orders to effect creations of Creation Units of the Funds until such time as the next-announced composition of the Deposit Securities is made available, or unless the Adviser elects to receive an All Cash Amount in connection with the creation of Creation Units.

The identity and number of shares of the Deposit Securities required for a Fund Deposit for the Funds changes as rebalancing adjustments and corporate action events are reflected within the Funds from time to time by the Adviser, with a view to the investment objective of the Funds. In addition, the Trust reserves the right to permit the substitution of an amount of cash – i.e., a “cash in lieu” amount – to be added to the Cash Component to replace any Deposit Security that may not be available in sufficient quantity for delivery or that may not be eligible for transfer through the systems of DTC or the Clearing Process (discussed below), or which might not be eligible for trading by an Authorized Participant (as defined below) or the investor for which it is acting or other relevant reason. In addition to the list of names and number of securities constituting the current Deposit Securities of a Fund Deposit, the Custodian, through the NSCC, also makes available on each Business Day the estimated Cash Component, effective through and including the previous Business Day, per outstanding Creation Unit of each Fund.

The process for a creation order involving an All Cash Amount will be the same as the process for an In Kind Creation, except that the Cash Component will be the entirety of the amount deposited as consideration for the Creation Unit(s).

Procedures for Creation of Creation Units

All orders to create Creation Units must be placed with the Transfer Agent either (1) through Continuous Net Settlement System of the NSCC (“Clearing Process”), a clearing agency that is registered with the SEC, by a “Participating Party,” i.e., a broker-dealer or other participant in the Clearing Process; or (2) outside the Clearing Process by a DTC Participant. In each case, the Participating Party or the DTC Participant must have executed an agreement with the Distributor with respect to creations and redemptions of Creation Units (“Participant Agreement”); such parties are collectively referred to as “APs” or “Authorized Participants.” Investors should contact the Distributor for the names of Authorized Participants. All Fund Shares, whether created through or outside the Clearing Process, will be entered on the records of DTC for the account of a DTC Participant.

The Distributor will process orders to purchase Creation Units received by 3:00 p.m. New York time on the trade date (“Closing Time”), as long as they are in proper form. If an order to purchase Creation Units is received in proper form by Closing Time, then it will be processed that day. Purchase orders received in proper form after Closing Time will be processed on the following Business Day and will be priced at the NAV determined on that day. Custom orders must be received by the Transfer Agent no later than 3:00 p.m. New York time on the trade date. In the case of an In Kind Creation, a custom order may be placed by an Authorized Participant in the event that the Trust permits the substitution of an amount of cash to be added to the Cash Component to replace any Deposit Security which may not be available in sufficient quantity for delivery or which may not be eligible for trading by such Authorized Participant or the investor for which it is acting or other relevant reason. The date on which an order to create Creation Units (or an order to redeem Creation Units, as discussed below) is placed is referred to as the “Transmittal Date.” Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Distributor pursuant to procedures set forth in the Participant Agreement, as described below in the sections entitled “Placement of Creation Orders Using the Clearing Process” and “Placement of Creation Orders Outside the Clearing Process.”

All orders to create Creation Units from investors who are not Authorized Participants shall be placed with an Authorized Participant in the form required by such Authorized Participant. In addition, the Authorized Participant may request the investor to make certain representations or enter

into agreements with respect to the order, e.g., to provide for payments of cash, when required. Investors should be aware that their particular broker may not have executed a Participant Agreement and, therefore, orders to create Creation Units of the Funds have to be placed by the investor's broker through an Authorized Participant that has executed a Participant Agreement. In such cases there may be additional charges to such investor. At any given time, there may be only a limited number of broker-dealers that have executed a Participant Agreement.

Those placing orders for Creation Units through the Clearing Process should afford sufficient time to permit proper submission of the order to the Transfer Agent prior to the Closing Time on the Transmittal Date. Orders for Creation Units that are effected outside the Clearing Process are likely to require transmittal by the DTC Participant earlier on the Transmittal Date than orders effected using the Clearing Process. Those persons placing orders outside the Clearing Process should ascertain the deadlines applicable to DTC and the Federal Reserve Bank wire system by contacting the operations department of the broker or depository institution effectuating such transfer of the Fund Deposit. For more information about Clearing Process and DTC, see the sections below entitled "Placement of Creation Orders Using the Clearing Process" and "Placement of Creation Orders Outside the Clearing Process."

Placement of Creation Orders Using the Clearing Process

The Clearing Process is the process of creating or redeeming Creation Units through the Continuous Net Settlement System of the NSCC. All Fund Deposits and/or Cash Component, as applicable, made through the Clearing Process must be delivered through a Participating Party that has executed a Participant Agreement. The Participant Agreement authorizes the Transfer Agent to transmit through the Custodian to NSCC, on behalf of the Participating Party, such trade instructions as are necessary to effect the Participating Party's creation order. Pursuant to such trade instructions to NSCC, the Participating Party agrees to deliver the requisite Fund Deposits and/or Cash Component, as applicable, to the Trust, together with such additional information as may be required by the Distributor. An order to create Creation Units through the Clearing Process is deemed received by the Distributor or transfer agent on the Transmittal Date if (1) such order is received by the Transfer Agent not later than the Closing Time on such Transmittal Date and (2) all other procedures set forth in the Participant Agreement are properly followed.

Placement of Creation Orders Outside the Clearing

All Fund Deposits and/or Cash Component, as applicable, made outside the Clearing Process must be delivered through a DTC Participant that has executed a Participant Agreement. A DTC Participant who wishes to place an order creating Creation Units to be effected outside the Clearing Process does not need to be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Units will instead be effected through a transfer of cash and securities directly through DTC. The Fund Deposit transfer must be ordered by the DTC Participant on the Transmittal Date in a timely fashion so as to ensure the delivery of the requisite number of Deposit Securities through DTC to the account of the Fund by no later than 11:00 a.m. New York time on the next Business Day following the Transmittal Date ("DTC Cut-Off-Time").

All questions as to the amount of an All Cash Amount, the number of Deposit Securities to be delivered, or the amount of a Cash Component, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities, will be determined by the Trust, whose determination shall be final and binding. The amount of cash equal to the Cash Component (including All Cash Amounts) must be transferred directly to the Custodian through the Federal Reserve Bank wire transfer system in a timely manner so as to be received by the Custodian no later than 2:00 p.m.

New York time on the next Business Day following the Transmittal Date. An order to create Creation Units outside the Clearing Process is deemed received by the Distributor on the Transmittal Date if (1) such order is received by the Transfer Agent not later than the Closing Time on such Transmittal Date and (2) all other procedures set forth in the Participant Agreement are properly followed. However, if the Custodian does not receive both the requisite Deposit Securities and the Cash Component or the All Cash Amount, as applicable, by 11:00 a.m. and 2:00 p.m., respectively, on the next Business Day following the Transmittal Date, such order will be canceled. Upon written notice to the Distributor, such canceled order may be resubmitted the following Business Day using the Fund Deposits and/or Cash Components as newly constituted to reflect the then-current Deposit Securities and Cash Component, or the All Cash Amount, as applicable. The delivery of Creation Units so created will occur no later than the third Business Day following the day on which the purchase order is deemed received by the Distributor.

Additional transaction fees may be imposed with respect to transactions effected through a DTC participant outside the Clearing Process and in the limited circumstances in which any cash can be used in lieu of Deposit Securities to create Creation Units. See the section of this SAI entitled “Purchase and Redemption of Creation Units—Creation Transaction Fee.”

Creation Units of an In-Kind Creation may be created in advance of receipt by the Trust of all or a portion of the applicable Deposit Securities. In these circumstances, the initial deposit will have a value greater than the NAV of the Fund Shares on the date the order is placed in proper form since, in addition to available Deposit Securities, cash must be deposited in an amount equal to the sum of (1) the Cash Component plus (2) 125% of the then-current market value of the undelivered Deposit Securities (“Additional Cash Deposit”). The order shall be deemed to be received on the Business Day on which the order is placed provided that the order is placed in proper form prior to Closing Time and funds in the appropriate amount are deposited with the Custodian by 11:00 a.m. New York time the following Business Day. If the order is not placed in proper form by Closing Time or funds in the appropriate amount are not received by 11:00 a.m. the next Business Day, then the order may be deemed to be canceled and the Authorized Participant shall be liable to each Fund for losses, if any, resulting therefrom. An additional amount of cash shall be required to be deposited with the Trust, pending receipt of the undelivered Deposit Securities to the extent necessary to maintain the Additional Cash Deposit with the Trust in an amount at least equal to 125% of the daily marked-to-market value of the undelivered Deposit Securities. To the extent that undelivered Deposit Securities are not received by 1:00 p.m. New York time on the third Business Day following the day on which the purchase order is deemed received by the Distributor, or in the event a marked-to-market payment is not made within one Business Day following notification by the Transfer Agent that such a payment is required, the Trust may use the cash on deposit to purchase the undelivered Deposit Securities. Authorized Participants will be liable to the Trust and each Fund for the costs incurred by the Trust in connection with any such purchases. These costs will be deemed to include the amount by which the actual purchase price of the Deposit Securities exceeds the market value of such Deposit Securities on the day the purchase order was deemed received by the Distributor plus the brokerage and related transaction costs associated with such purchases. The Trust will return any unused portion of the Additional Cash Deposit once all of the undelivered Deposit Securities have been properly received by the Custodian or purchased by the Trust and deposited into the Trust’s custodial account. In addition, a transaction fee will be charged in all cases. See the section below entitled “Creation Transaction Fee.” The delivery of Creation Units so created will occur no later than the third Business Day following the day on which the purchase order is deemed received by the Distributor.

Acceptance of Orders for Creation Units

The Trust reserves the right to reject a creation order transmitted to it by the Transfer Agent if: (1) the order is not in proper form; (2) if the Cash Component paid is incorrect; (3) the investor(s), upon obtaining the Fund Shares ordered, would own 80% or more of the currently outstanding Shares

of the Funds; (4) the Deposit Securities delivered are not as disseminated for that date by the Custodian, as described above; (5) acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; or (6) there exist circumstances outside the control of the Trust, the Custodian, transfer agent, the Distributor and the Adviser that make it for all practical purposes impossible to process creation orders. Examples of such circumstances include acts of God; public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, telecopy and computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, the Adviser, the Distributor or transfer agent, DTC, NSCC, the Custodian or sub-custodian or any other participant in the creation process and similar extraordinary events. The Distributor shall notify the Authorized Participant of its rejection of the order. The Trust, the Custodian, any sub-custodian, the transfer agent and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits nor shall any of them incur any liability for the failure to give any such notification. All questions as to the number of shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Trust and the Trust's determination shall be final and binding.

Creation Units typically are issued on a "T+1 basis" (that is, one Business Day after trade date). To the extent contemplated by an Authorized Participant's agreement with the Distributor, the Trust will issue Creation Units of an In Kind Creation to such Authorized Participant notwithstanding the fact that the corresponding Portfolio Deposits have not been received in part or in whole, in reliance on the undertaking of the Authorized Participant to deliver the missing Deposit Securities as soon as possible, which undertaking shall be secured by such Authorized Participant's delivery and maintenance of collateral having a value equal to 110%, which the Adviser may change from time to time, of the value of the missing Deposit Securities in accordance with the Trust's then-effective procedures. Such collateral must be delivered no later than 2:00 p.m., Eastern Time, on the contractual settlement date. The only collateral that is acceptable to the Trust is cash in U.S. Dollars or an irrevocable letter of credit in form, and drawn on a bank, that is satisfactory to the Trust. The cash collateral posted by the Authorized Participant may be invested at the risk of the Authorized Participant, and income, if any, on invested cash collateral will be paid to that Authorized Participant.

Information concerning the Trust's current procedures for collateralization of missing Deposit Securities is available from the Distributor or transfer agent. The Participant Agreement will permit the Trust to buy the missing Deposit Securities at any time and will subject the Authorized Participant to liability for any shortfall between the cost to the Trust of purchasing such securities and the cash collateral or the amount that may be drawn under any letter of credit.

In certain cases, Authorized Participants will create and redeem Creation Units (whether by In Kind Creation/Redemption or for an All Cash Amount) on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis. All questions as to the amount of cash required to be delivered, the number of shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered, as applicable, shall be determined by the Trust, and the Trust's determination shall be final and binding.

Creation Transaction Fee

Authorized Participants will be required to pay to the Custodian a fixed transaction fee ("Creation Transaction Fee") in connection with creation orders that is intended to offset the transfer and other transaction costs associated with the issuance of Creation Units. The standard Creation Transaction Fee will be the same regardless of the number of Creation Units purchased by an investor

on the applicable Business Day. The Creation Transaction Fee charged by the Funds' custodian for each creation order is:

Applied Finance IVS US SMID ETF	\$500
Applied Finance IVS International Large ETF	\$1,700
Applied Finance IVS International SMID ETF	\$2,200

In addition, a variable fee, payable to each Fund, of a percentage of the value of the Creation Units subject to the transaction may be imposed for cash purchases, non-standard orders, or partial cash purchases of Creation Units. The variable charge is primarily designed to cover additional costs (e.g., brokerage, taxes) involved with buying the securities with cash. The Funds may determine to not charge a variable fee on certain orders when the Adviser has determined that doing so is in the best interests of Fund shareholders. Investors are responsible for the costs of transferring the securities constituting the Deposit Securities to the account of the Trust.

In order to seek to replicate the In Kind Creation order process for creation orders executed in whole or in part with cash, the Trust expects to purchase, in the secondary market or otherwise gain exposure to, the portfolio securities that could have been delivered as a result of an In Kind Creation order pursuant to local law or market convention, or for other reasons ("Creation Market Purchases"). In such cases where the Trust makes Creation Market Purchases, the Authorized Participant will reimburse the Trust for, among other things, any difference between the market value at which the securities and/or financial instruments were purchased by the Trust and the cash-in-lieu amount, applicable registration fees, brokerage commissions and certain taxes.

The Creation Transaction Fee may be waived for the Funds when the Adviser believes that waiver of the Creation Transaction Fee is in the best interest of the Funds. When determining whether to waive the Creation Transaction Fee, the Adviser considers a number of factors including whether waiving the Creation Transaction Fee will: facilitate the initial launch of each Fund; facilitate portfolio rebalancings in a less costly manner; improve the quality of the secondary trading market for the Funds' shares; and not result in a Fund bearing additional costs or expenses as a result of the waiver.

Redemption Orders

The process to redeem Creation Units is essentially the reverse of the process by which Creation Units are created, as described above. To redeem Shares directly from a Fund, an investor must be an Authorized Participant or must redeem through an Authorized Participant. The Trust redeems Creation Units on a continuous basis on any Business Day through the Distributor at the Shares' NAV next determined after receipt of an order in proper form. Each Fund will not redeem Shares in amounts less than Creation Units. Authorized Participants must accumulate enough Shares in the secondary market to constitute a Creation Unit in order to have such Shares redeemed by the Trust. There can be no assurance, however, that there will be sufficient liquidity in the public trading market at any time to permit assembly of a Creation Unit.

Generally, Creation Units of the Funds will also be redeemed at NAV principally in cash, although a Fund reserves the right to redeem all or a portion in kind, in each case less a transaction fee as described below. With respect to In Kind Redemptions, the Custodian, through the NSCC, makes available prior to the opening of business on the Exchange (currently 9:30 a.m. New York time) on each Business Day, the identity of the Fund Securities that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form (as described below) on that day. Fund Securities received on redemption may not be identical to Deposit Securities that are applicable to creations of Creation Units. The redemption proceeds for an In Kind Redemption of a Creation Unit consists of Fund Securities – as announced on the Business Day the

request for redemption is received in proper form – plus or minus cash in an amount equal to the difference between the NAV of the Fund Shares being redeemed, as next determined after a receipt of a redemption request in proper form, and the value of the Fund Securities (“Cash Redemption Amount”), less a redemption transaction fee (see the section below entitled “Redemption Transaction Fee”).

The right of redemption may be suspended or the date of payment postponed with respect to the Funds (1) for any period during which the Exchange is closed (other than customary weekend and holiday closings); (2) for any period during which trading on the Exchange is suspended or restricted; (3) for any period during which an emergency exists as a result of which disposal of the Shares of the Funds or determination of the Funds’ NAV is not reasonably practicable; or (4) in such other circumstances as is permitted by the SEC.

Deliveries of redemption proceeds by each Fund generally will be made within one Business Day (that is “T+1”). However, each Fund reserves the right to settle redemption transactions and deliver redemption proceeds on a basis other than T+1 to accommodate foreign market holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and dividend ex-dates (that is the last date the holder of a security can sell the security and still receive dividends payable on the security sold), and in certain other circumstances.

The process for a redemption order involving an All Cash Amount will be the same as the process for an In-Kind Redemption, except that the proceeds of the redemption will be paid entirely in cash. Proceeds of redemptions of Creation Units payable in an All Cash Amount will be paid to the Authorized Participant redeeming Shares on behalf of the redeeming investor as soon as practicable after the date of redemption (within seven calendar days thereafter).

Placement of Redemption Orders Using the Clearing Process

Orders to redeem Creation Units through the Clearing Process must be delivered through an Authorized Participant that has executed a Participant Agreement. Investors other than Authorized Participants are responsible for making arrangements with an Authorized Participant for an order to redeem. An order to redeem Creation Units is deemed received by the Trust on the Transmittal Date if: (1) such order is received by the Transfer Agent not later than Closing Time on such Transmittal Date; and (2) all other procedures set forth in the Participant Agreement are properly followed. Such order will be effected based on the NAV of the relevant Fund as next determined. An order to redeem Creation Units using the Clearing Process made in proper form but received by the Transfer Agent after Closing Time will be deemed received on the next Business Day immediately following the Transmittal Date and will be effected at the NAV determined on such next Business Day. The requisite Fund Securities and/or the Cash Redemption Amount, as applicable, will be transferred by the third NSCC business day following the date on which such request for redemption is deemed received.

Placement of Redemption Orders Outside the Clearing Process

Orders to redeem Creation Units outside the Clearing Process must be delivered through a DTC Participant that has executed the Participant Agreement. A DTC Participant who wishes to place an order for redemption of Creation Units to be effected outside the Clearing Process does not need to be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that redemption of Creation Units will instead be effected through transfer of Fund Shares directly through DTC. An order to redeem Creation Units outside the Clearing Process is deemed received by the Distributor on the Transmittal Date if (1) such order is received by the Transfer Agent not later than Closing Time on such Transmittal Date; (2) such order is accompanied or followed by the requisite number of Fund Shares, which delivery must be made through DTC to the Custodian no later than the DTC Cut-Off-Time, and the Cash Redemption Amount, if owed to

the Fund, which delivery must be made by 2:00 p.m. New York Time; and (3) all other procedures set forth in the Participant Agreement are properly followed. After the Distributor receives an order for redemption outside the Clearing Process, the Transfer Agent will initiate procedures to transfer the requisite Fund Securities which are expected to be delivered and the Cash Redemption Amount, if any, by the third Business Day following the Transmittal Date.

The calculation of the value of the Fund Securities and/or the Cash Redemption Amount, as applicable, to be delivered or received upon redemption (by the Authorized Participant or the Trust, as applicable) will be made by the Custodian according to the procedures set forth the section of this SAI entitled “Determination of Net Asset Value” computed on the Business Day on which a redemption order is deemed received by the Distributor. Therefore, if a redemption order in proper form is submitted to the Transfer Agent by a DTC Participant not later than Closing Time on the Transmittal Date, and the requisite number of Shares of each Fund are delivered to the Custodian prior to the DTC Cut-Off-Time, then the value of the Fund Securities and/or the Cash Redemption Amount, as applicable, to be delivered or received (by the Authorized Participant or the Trust, as applicable) will be determined by the Custodian on such Transmittal Date. If, however, either (1) the requisite number of Shares of the relevant Fund are not delivered by the DTC Cut-Off-Time, as described above, or (2) the redemption order is not submitted in proper form, then the redemption order will not be deemed received as of the Transmittal Date. In such case, the value of the Fund Securities and/or the Cash Redemption Amount, as applicable, to be delivered or received will be computed on the Business Day following the Transmittal Date provided that the Fund Shares of the relevant Fund are delivered through DTC to the Custodian by 11:00 a.m. New York time the following Business Day pursuant to a properly submitted redemption order.

The Trust may in its discretion at any time, or from time to time, exercise its option to redeem Fund Shares solely for consideration in the form of an All Cash Amount, and the redeeming Authorized Participant will be required to receive its redemption proceeds in cash. In addition, an investor may request a redemption in cash that the Trust may permit, in its sole discretion. In either case, the investor will receive an All Cash Amount payment equal to the NAV of its Fund Shares based on the NAV of Shares of the relevant Fund next determined after the redemption request is received in proper form (minus a transaction fee which will include an additional charge for cash redemptions to offset the Fund’s brokerage and other transaction costs associated with the disposition of Fund Securities). Each Fund may also, in its sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities that differs from the exact composition of the Fund Securities, or cash in lieu of some securities added to the Cash Redemption Amount, but in no event will the total value of the securities delivered and the cash transmitted differ from the NAV. Redemptions of Fund Shares for Fund Securities will be subject to compliance with applicable federal and state securities laws and a Fund (whether or not it otherwise permits cash redemptions) reserves the right to redeem Creation Units for cash to the extent that the Trust could not lawfully deliver specific Fund Securities upon redemptions or could not do so without first registering the Fund Securities under such laws.

An Authorized Participant or an investor for which it is acting that is subject to a legal restriction with respect to a particular security included in the Fund Securities applicable to the redemption of a Creation Unit may be paid an equivalent amount of cash. The Authorized Participant may request the redeeming beneficial owner of the Fund Shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment, beneficial ownership of shares or delivery instructions.

Redemption Transaction Fee

Investors will be required to pay to the Custodian a fixed transaction fee (“Redemption Transaction Fee”) to offset the transfer and other transaction costs associated with the redemption of Creation Units. The standard Redemption Transaction Fee will be the same regardless of the number of Creation Units redeemed by an investor on the applicable Business Day. The Redemption Transaction Fee charged by the Funds’ custodian for each redemption order is:

Applied Finance IVS US SMID ETF	\$500
Applied Finance IVS International Large ETF	\$1,700
Applied Finance IVS International SMID ETF	\$2,200

An additional variable fee of up to three (3) times the fixed Transaction Fee plus all commission and fees payable to the Funds in connection with the sale of the Fund Securities (expressed as a percentage value of such Fund Securities) may be imposed for (1) redemptions effected outside the Clearing Process and (2) redemptions made in an All Cash Amount (to offset the Trust’s brokerage and other transaction costs associated with the sale of Fund Securities). Investors will also bear the costs of transferring the Fund Securities from the Trust to their account or on their order.

In order to seek to replicate the In Kind Redemption order process for redemption orders executed in whole or in part with cash, the Trust expects to sell, in the secondary market, the portfolio securities or settle any financial instruments that may not be permitted to be re-registered in the name of the Participating Party as a result of an In Kind Redemption order pursuant to local law or market convention, or for other reasons (“Market Sales”). In such cases where the Trust makes Market Sales, the Authorized Participant will reimburse the Trust for, among other things, any difference between the market value at which the securities and/or financial instruments were sold or settled by the Trust and the cash-in-lieu amount, applicable registration fees, brokerage commissions and certain taxes.

Regardless of form, the Redemption Transaction Fee (including any reimbursements related to in cash redemptions or additional variable fees for In Kind Redemptions) will be limited in accordance with the requirements of the SEC applicable to management investment companies offering redeemable securities (currently, no more than 2% of the value of the shares redeemed).

The Redemption Transaction Fee may be waived for the Funds when the Adviser believes that waiver of the Redemption Transaction Fee is in the best interest of the Funds. When determining whether to waive the Redemption Transaction Fee, the Adviser considers a number of factors including whether waiving the Redemption Transaction Fee will: facilitate portfolio rebalancings in a less costly manner; improve the quality of the secondary trading market for the Funds’ Shares; and not result in the Funds bearing additional costs or expenses as a result of the waiver.

Custom Baskets

The Fund Securities to be deposited for the purchase of a Creation Unit, and the Fund Securities delivered in connection with a Redemption, may differ, and the Fund may accept “custom baskets.” A custom basket may include any of the following: (i) a basket that is composed of a non-representative selection of a Fund’s portfolio holdings; or (ii) a representative basket that is different from the initial basket used in transactions on the same business day. The Fund has adopted policies and procedures that govern the construction and acceptance of baskets, including heightened requirements for certain types of custom baskets.

ADDITIONAL PAYMENTS TO FINANCIAL INTERMEDIARIES

The Adviser and its affiliates may, out of its own resources and without additional cost to the Funds or their shareholders, pay a solicitation fee to securities dealers or other financial intermediaries (collectively, a “Financial Intermediary.”)

TAXES

The following discussion is a summary of certain U.S. federal income tax considerations affecting the Funds and their shareholders. The discussion reflects applicable U.S. federal income tax laws as of the date of this SAI, which tax laws may be changed or subject to new interpretations by the courts or the Internal Revenue Service (the “IRS”), possibly with retroactive effect. No attempt is made to present a detailed explanation of all U.S. income, estate or gift tax, or foreign, state or local tax concerns affecting the Funds and their shareholders (including shareholders owning large positions in a Fund). The discussion set forth herein does not constitute tax advice. Investors are urged to consult their own tax advisers to determine the tax consequences to them of investing in a Fund.

In addition, no attempt is made to address tax concerns applicable to an investor with a special tax status such as a financial institution, real estate investment trust (“REIT”), insurance company, regulated investment company (“RIC”), individual retirement account (“IRA”), other tax-exempt entity, or dealer in securities. Furthermore, this discussion does not reflect possible application of the alternative minimum tax (“AMT”). Unless otherwise noted, this discussion assumes shares of the Funds (“Shares”) are held by U.S. shareholders (defined below) and that such Shares are held as capital assets.

A U.S. shareholder is a beneficial owner of Shares that is for U.S. federal income tax purposes:

- a citizen or individual resident of the United States (including certain former citizens and former long-term residents);
- a corporation or other entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States or any state thereof or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust with respect to which a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all of its substantial decisions or a trust that has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

A “Non-U.S. shareholder” is a beneficial owner of Shares that is an individual, corporation, trust or estate and is not a U.S. shareholder. If a partnership (including any entity treated as a partnership for U.S. federal income tax purposes) holds Shares, the tax treatment of a partner in the partnership generally depends upon the status of the partner and the activities of the partnership. A prospective shareholder who is a partner of a partnership that will hold Shares should consult its own tax adviser with respect to the purchase, ownership and disposition of Shares by the partnership.

Taxation as a RIC. Each Fund intends to qualify and remain qualified as a RIC under the Internal Revenue Code of 1986, as amended (the “Code”). There can be no assurance that each will so qualify. A Fund will qualify as a RIC if, among other things, it meets the source-of-income and the asset-diversification requirements. With respect to the source-of-income requirement, a Fund must derive in each taxable year at least 90% of its gross income (including tax-exempt interest) from (i) dividends, interest, payments with respect to certain securities loans, gains from the sale or other

disposition of stock, securities or foreign currencies, or other income (including but not limited to gains from options, futures and forward contracts) derived with respect to its business of investing in such stock, securities or currencies and (ii) net income derived from an interest in a “qualified publicly traded partnership” (the “Income Test”). A “qualified publicly traded partnership” is generally defined as a publicly traded partnership under Code Section 7704. Income derived from a partnership (other than a qualified publicly traded partnership) or trust is qualifying income to the extent such income is attributable to items of income of the partnership or trust which would be qualifying income if realized by a Fund in the same manner as realized by the partnership or trust.

If a RIC fails the Income Test and such failure was due to reasonable cause and not willful neglect, generally it will not be subject to the U.S. federal income tax rate applicable to corporations. Instead, the amount of the penalty for non-compliance is the amount by which the non-qualifying income exceeds one-ninth of the qualifying gross income.

With respect to the asset-diversification requirement, each Fund must diversify its holdings so that, at the end of each quarter of each taxable year (i) at least 50% of the value of the Fund’s total assets are represented by cash and cash items, U.S. government securities, the securities of other RICs and other securities, if such other securities of any one issuer do not represent more than 5% of the value of the Fund’s total assets or more than 10% of the outstanding voting securities of such issuer, and (ii) not more than 25% of the value of the Fund’s total assets is invested in securities, other than U.S. government securities or the securities of other RICs, of (a) one issuer, (b) two or more issuers that are controlled by the Fund and that are engaged in the same, similar or related trades or businesses, or (c) one or more qualified publicly traded partnerships (the “Asset Test”).

If a RIC fails the Asset Test, such RIC has a 6-month period to correct any failure without incurring a penalty if such failure is “de minimis,” meaning that the failure does not exceed the lesser of 1% of the RIC’s assets, or \$10 million.

Similarly, if a RIC fails the Asset Test and the failure is not de minimis, a RIC can cure the failure if: (i) the RIC files with the U.S. Treasury Department a description of each asset that caused the RIC to fail the Asset Test; (ii) the failure is due to reasonable cause and not willful neglect; and (iii) the failure is cured within six months (or such other period specified by the U.S. Treasury Department). In such cases, a tax is imposed on the RIC equal to the greater of: (i) \$50,000 or (ii) an amount determined by multiplying the highest corporate U.S. federal income tax rate (currently 21%) by the amount of net income generated during the period of the Asset Test failure from the assets that caused the RIC to fail the Asset Test.

If a Fund qualifies as a RIC and distributes to its shareholders, for each taxable year, at least 90% of the sum of (i) its “investment company taxable income” as that term is defined in the Code (which includes, among other things, dividends, taxable interest, the excess of any net short-term capital gains over net long-term capital losses and certain net foreign exchange gains as reduced by certain deductible expenses) without regard to the deduction for dividends paid, and (ii) the excess of its gross tax-exempt interest, if any, over certain deductions attributable to such interest that are otherwise disallowed (the “Distribution Test”), the Fund will be relieved of U.S. federal income tax on any income of the Fund, including long-term capital gains, distributed to shareholders. However, any ordinary income or capital gain retained by the Fund will be subject to regular corporate U.S. federal income tax rates (currently at a maximum rate of 21%). Each Fund intends to distribute at least annually substantially all of its investment company taxable income, net tax-exempt interest, and net capital gain.

Each Fund will generally be subject to a nondeductible 4% U.S. federal excise tax on the portion of its undistributed ordinary income with respect to each calendar year and undistributed capital gains if it fails to meet certain distribution requirements with respect to the one-year period ending on October 31 in that calendar year. To avoid the 4% U.S. federal excise tax, the required

minimum distribution is generally equal to the sum of (i) 98% of the Fund's ordinary income (computed on a calendar year basis), (ii) 98.2% of the Fund's capital gain net income (generally computed for the one-year period ending on October 31), and (iii) any income realized, but not distributed, and on which the Fund paid no U.S. federal income tax in preceding years. Each Fund generally intends to make distributions in a timely manner in an amount at least equal to the required minimum distribution and therefore, under normal market conditions, does not expect to be subject to this excise tax.

A Fund may be required to recognize taxable income in circumstances in which it does not receive cash. For example, if a Fund holds debt obligations that are treated under applicable U.S. federal income tax rules as having original issue discount ("OID"), such as debt instruments with payment of kind interest or, in certain cases, with increasing interest rates or that are issued with warrants, the Fund must include in income each year a portion of the OID that accrues over the life of the obligation regardless of whether cash representing such income is received by the Fund in the same taxable year. Because any OID accrued will be included in a Fund's "investment company taxable income" (discussed below) for the year of accrual, the Fund may be required to make a distribution to its shareholders to satisfy the Distribution Test, even though it will not have received an amount of cash that corresponds with the accrued income.

A RIC is permitted to carry forward net capital losses indefinitely and may allow losses to retain their original character (as short or as long-term). These capital loss carryforwards may be utilized in future years to offset net realized capital gains of a Fund, if any, prior to distributing such gains to shareholders.

Except as set forth below in "Failure to Qualify as a RIC," the remainder of this discussion assumes that each Fund will qualify as a RIC for each taxable year.

Failure to Qualify as a RIC. If a Fund is unable to satisfy the Distribution Test or otherwise fails to qualify as a RIC in any year, it will be subject to corporate U.S. federal income tax on all of its income and gain, regardless of whether or not such income was distributed. Distributions to a Fund's shareholders of such income and gain will not be deductible by the Fund in computing its taxable income. In such event, the Fund's distributions, to the extent derived from the Fund's current or accumulated earnings and profits, would constitute ordinary dividends, which would generally be eligible for the dividends received deduction available to corporate U.S. shareholders, and non-corporate U.S. shareholders would generally be able to treat such distributions as "qualified dividend income" eligible for preferential rates of U.S. federal income taxation, provided in each case certain holding period and other requirements are satisfied. Distributions in excess of a Fund's current and accumulated earnings and profits would be treated first as a return of capital to the extent of a shareholder's tax basis in its Shares, and any remaining distributions would be treated as a capital gain.

To qualify as a RIC in a subsequent taxable year, a Fund would be required to satisfy the Income Test, Asset Test, and Distribution Test for that year and distribute any earnings and profits from any year in which the Fund failed to qualify for tax treatment as a RIC. Subject to a limited exception applicable to RICs that qualified as such under the Code for at least one year prior to disqualification and that requalify as a RIC no later than the second year following the nonqualifying year, a Fund would be subject to tax on any unrealized built-in gains in the assets held by it during the period in which the Fund failed to qualify for tax treatment as a RIC that are recognized within the subsequent five years, unless the Fund made a special election to pay corporate-level U.S. federal income tax on such built-in gain at the time of its requalification as a RIC.

Taxation of U.S. Shareholders. Distributions paid to U.S. shareholders by a Fund from its investment company taxable income (which is, generally, the Fund's ordinary income plus net realized short-term capital gains in excess of net realized long-term capital losses) are generally

taxable to U.S. shareholders as ordinary income to the extent of the Fund's earnings and profits, whether paid in cash or reinvested in additional Shares. Such distributions (if designated by the Fund) may qualify (i) for the dividends received deduction in the case of corporate U.S. shareholders to the extent that the Fund's income consists of dividend income from U.S. corporations, excluding distributions from tax-exempt organizations, exempt farmers' cooperatives or REITs or (ii) in the case of non-corporate U.S. shareholders, as qualified dividend income eligible to be taxed at preferential rates to the extent that the Fund receives qualified dividend income, and provided in each case certain holding period and other requirements are met. Qualified dividend income is, in general, dividend income from taxable U.S. corporations and qualified foreign corporations (which generally include foreign corporations incorporated in a possession of the United States or in certain countries with a qualified comprehensive income tax treaty with the United States, or the stock with respect to which such dividend is paid is readily tradable on an established securities market in the United States). A qualified foreign corporation generally excludes any foreign corporation, which for the taxable year of the corporation in which the dividend was paid, or the preceding taxable year, is a passive foreign investment company (a "PFIC"). Distributions made to a U.S. shareholder from an excess of net long-term capital gains over net short-term capital losses ("Capital Gain Dividends"), including Capital Gain Dividends credited to such U.S. shareholder but retained by the Fund, are taxable to such U.S. shareholder as long-term capital gain if they have been properly designated by the Fund, regardless of the length of time such U.S. shareholder owned the Shares. The maximum tax rate on Capital Gain Dividends received by non-corporate U.S. Shareholders is generally 20%. Distributions in excess of a Fund's earnings and profits will be treated by a U.S. shareholder, first, as a tax-free return of capital, which is applied against and will reduce the adjusted tax basis of the U.S. shareholder's Shares and, after such adjusted tax basis is reduced to zero, will constitute capital gain to the U.S. shareholder. The Funds are not required to provide written notice designating the amount of any qualified dividend income or capital gain dividends and other distributions. The Forms 1099 sent to the U.S. shareholders will instead serve this notice purpose.

As a RIC, each Fund will be subject to the AMT, but any items that are treated differently for AMT purposes must be apportioned between the Fund and its shareholders and this may affect the U.S. shareholders' AMT liabilities. Each Fund intends in general to apportion these items in the same proportion that dividends paid to each shareholder bear to a Fund's taxable income, determined without regard to the dividends paid deduction.

For purpose of determining (i) whether the Distribution Test is satisfied for any year and (ii) the amount of Capital Gain Dividends paid for that year, a Fund may, under certain circumstances, elect to treat a dividend that is paid during the following taxable year as if it had been paid during the prior taxable year. If a Fund makes such an election, a U.S. shareholder will still be treated as receiving the dividend in the taxable year in which the distribution is made. However, any dividend declared by a Fund in October, November or December of any calendar year, payable to shareholders of record on a specified date in such a month and actually paid during January of the following year, will be treated as if it had been received by the U.S. shareholders on December 31 of the year in which the dividend was declared.

Each Fund intends to distribute all realized capital gains, if any, at least annually. If, however, the Fund were to retain any net capital gain, the Fund may designate the retained amount as undistributed capital gains in a notice to shareholders who, if subject to U.S. federal income tax on long-term capital gains, (i) will be required to include in income as long-term capital gain, their proportionate shares of such undistributed amount, and (ii) will be entitled to credit their proportionate shares of the U.S. federal income tax paid by the Fund on the undistributed amount against their U.S. federal income tax liabilities, if any, and to claim refunds to the extent the credit exceeds such liabilities. If such an event occurs, the tax basis of Shares will, for U.S. federal income tax purposes, generally be increased by the difference between the amount of undistributed net capital gain included in the shareholder's gross income and the tax deemed paid by the shareholder.

Sales of Shares or redemption of Creation Units and other dispositions of Shares, such as exchanges, of a Fund generally are taxable events. U.S. shareholders should consult their own tax advisers with reference to their individual circumstances to determine whether any particular transaction in the Shares is properly treated as a sale or exchange for U.S. federal income tax purposes, as the following discussion assumes, and the tax treatment of any gains or losses recognized in such transaction. The sale of Shares, redemption of Creation Units or other disposition of Shares will generally result in capital gain or loss to the U.S. shareholder equal to the difference between the amount realized and the adjusted tax basis in the Shares sold or exchanged, and will be long-term capital gain or loss if the Shares have been held for more than one year at the time of sale. Any loss upon the sale or exchange of Shares held for six months or less will be treated as long-term capital loss to the extent of any Capital Gain Dividends received (including amounts credited as an undistributed Capital Gain Dividend) by such shareholder with respect to such Shares. A loss realized on a sale or exchange of Shares generally will be disallowed if other substantially identical shares are acquired within a 61-day period beginning 30 days before and ending 30 days after the date that the Shares are disposed of. In such case, the tax basis of the Shares acquired will be adjusted to reflect the disallowed loss. Both long-term and short-term capital gain of U.S. corporations are taxed at the rates applicable to ordinary income of corporations. For non-corporate U.S. shareholders, short-term capital gain is taxed at the rate applicable to ordinary income, while long-term capital gain generally is taxed at a maximum rate of 20%. Capital losses are subject to certain limitations.

An Authorized Participant who exchanges securities for Creation Units generally will recognize gain or loss from the exchange. The gain or loss will be equal to the difference between the market value of the Creation Units at the time of the exchange and the sum of the exchanger's aggregate basis in the securities surrendered plus the amount of cash paid for such Creation Units. A person who redeems Creation Units will generally recognize a gain or loss equal to the difference between the sum of the aggregate market value of any securities received plus the amount of any cash received for such Creation Units and the exchanger's tax basis in the Creation Units. The IRS, however, may assert that an Authorized Participant which does not mark-to-market its holdings may not be permitted to currently deduct losses realized upon an exchange of securities for Creation Units under the rules governing "wash sales," or on the basis that there has been no significant change in economic position.

Any capital gain or loss realized upon the creation of Creation Units will generally be treated as long-term capital gain or loss if the securities exchanged for such Creation Units have been held for more than one year. Any capital gain or loss realized upon the redemption of Creation Units will generally be treated as long-term capital gain or loss if the Shares comprising the Creation Units have been held for more than one year. Otherwise, such capital gains or losses will be treated as short-term capital gains or losses. Any loss realized upon a redemption of Creation Units held for six months or less will be treated as a long-term capital loss to the extent of any amounts treated as distributions to the applicable Authorized Participant of long-term capital gains with respect to the Creation Units (including any amounts credited to the Authorized Participant as undistributed capital gains).

Each Fund has the right to reject an order for a purchase of Shares if the purchaser (or group of purchasers) would, upon obtaining the Shares so ordered, own 80% or more of the outstanding Shares of the Fund and if, pursuant to Code Section 351, the Fund would have a tax basis in the securities deposited for such Shares different from the market value of such securities on the date of deposit. The Trust also has the right to require information necessary to determine beneficial share ownership for purposes of the 80% determination. If a Fund does issue Creation Units to a purchaser (or group of purchasers) that would, upon obtaining the Shares so ordered, own 80% or more of the outstanding Shares of a Fund, the purchaser (or group of purchasers) may not recognize gain or loss upon the exchange of securities for Creation Units.

Persons purchasing or redeeming Creation Units should consult their own tax advisers with respect to the tax treatment of any creation or redemption transaction and whether the wash sales rules apply and when a loss might not be deductible.

Each Fund is required to report their shareholders' cost basis, gain/loss, and holding period for Shares to the IRS on the Fund's shareholders' Consolidated Form 1099s. Each Fund has chosen average cost as the standing (default) tax lot identification method for all shareholders. A tax lot identification method is the way the Funds will determine which specific Shares are deemed to be sold when there are multiple purchases on different dates at differing prices, and the entire position is not sold at one time. The Funds' standing tax lot identification method is the method Shares will be reported on a U.S. shareholder's Consolidated Form 1099 if the U.S. shareholder does not select a different tax lot identification method. U.S. shareholders may choose a method different than the Funds' standing method and will be able to do so at the time of the U.S. shareholder's purchase or upon the sale of Shares. The Funds and their service providers do not provide tax advice. U.S. shareholders should consult independent sources, which may include a tax professional, with respect to any decisions they may make with respect to choosing a tax lot identification method.

Certain U.S. shareholders, including individuals, estates and trusts, will be subject to an additional 3.8% Medicare tax on all or a portion of their "net investment income," which should include dividends from the Funds and net gains from the disposition of Shares. U.S. shareholders are urged to consult their own tax advisers regarding the implications of the additional Medicare tax resulting from an investment in a Fund.

Straddles. When a Fund enters into an offsetting position to limit the risk on another position, the "straddle" rules usually come into play. An option or other position entered into or held by a Fund in conjunction with any other position held by the Fund may constitute a "straddle" for U.S. federal income tax purposes. In general, straddles are subject to certain rules that may affect the character and timing of a Fund's gains and losses with respect to straddle positions. The key features of the straddle rules are as follows:

A Fund may have to wait to deduct any losses. If a Fund has a capital gain in one position of a straddle and a capital loss in the other, the Fund may not recognize the loss for U.S. federal income tax purposes until the Fund disposes of both positions. This might occur, for example, if a Fund had a highly appreciated stock position and the Fund purchased protective put options (which give the Fund the right to sell the stock to someone else for a period of time at a predetermined price) to offset the risk. If the stock continued to increase in value and the put options expired worthless, the Fund must defer recognition of the loss on its put options until the Fund sells and recognizes the gain on the original, appreciated position.

A Fund's capital gain holding period may get clipped. The moment a Fund enters into a typical straddle, the capital gains holding period on its offsetting positions is frozen. If a Fund held the original position for one year or less (thus not qualifying for the long-term capital gains rate), not only is the holding period frozen, it starts all over again when the Fund disposes of the offsetting position.

Losses recognized with respect to certain straddle positions that would otherwise constitute short-term capital losses may be treated as long-term capital losses. This generally has the effect of reducing the tax benefit of such losses.

A Fund may not be able to deduct any interest expenses or carrying charges with respect to a straddle. During the offsetting period, any interest or carrying charges associated with the straddle generally are not currently tax deductible, but must be capitalized (added to cost basis).

Original Issue Discount, Pay-In-Kind Securities, Market Discount and Commodity-Linked Notes. Some debt obligations with a fixed maturity date of more than one year from the date of issuance that may be acquired by a Fund may be treated as debt obligations that are issued originally at a discount. Generally, the amount of OID is treated as interest income and is included in a Fund's taxable income (and required to be distributed by the Fund) over the term of the debt obligation, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security.

Some debt obligations that may be acquired by a Fund in the secondary market may be treated as having "market discount." Very generally, market discount is the excess of the stated redemption price of a debt obligation (or in the case of an obligations issued with OID, its "revised issue price") over the purchase price of such obligation. Generally, any gain recognized on the disposition of, and any partial payment of principal on, a debt obligation having market discount is treated as ordinary income to the extent the gain, or principal payment, does not exceed the "accrued market discount" on such debt obligation. Alternatively, a Fund may elect to accrue market discount currently, in which case the Fund will be required to include the accrued market discount in the Fund's income (as ordinary income) and thus distribute it over the term of the debt security, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security. The rate at which the market discount accrues, and thus is included in a Fund's income, will depend upon which of the permitted accrual methods the Fund elects. In the case of higher-risk securities, the amount of market discount may be unclear. See below under "Higher-Risk Securities."

Some debt obligations that may be acquired by a Fund may be treated as having "acquisition discount" (very generally, the excess of the stated redemption price over the purchase price), or OID in the case of certain types of debt obligations. A Fund will be required to include the acquisition discount, or OID, in income (as ordinary income) over the term of the debt obligation, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security. A Fund may make one or more of the elections applicable to debt obligations having acquisition discount, or OID, which could affect the character and timing of recognition of income.

In addition, payment-in-kind securities will, and commodity-linked notes may, give rise to income that is required to be distributed and is taxable even though a Fund receives no interest payment in cash on the security during the year.

If a Fund holds the foregoing kinds of securities, it may be required to pay out as an income distribution each year an amount that is greater than the total amount of cash interest the Fund actually received. Such distributions may be made from the cash assets of a Fund or by liquidation of portfolio securities, if necessary (including when it is not advantageous to do so). The Funds may realize gains or losses from such liquidations. In the event a Fund realizes net capital gains from such transactions, its shareholders may receive a larger capital gain distribution than they would in the absence of such transactions.

Higher-Risk Securities. To the extent such investments are permissible for a Fund, the Fund may invest in debt obligations that are in the lowest rating categories or are unrated, including debt obligations of issuers not currently paying interest or who are in default. Investments in debt obligations that are at risk of or in default present special tax issues for a Fund. Tax rules are not entirely clear about issues such as when a Fund may cease to accrue interest, OID or market discount, when and to what extent deductions may be taken for bad debts or worthless securities and how payments received on obligations in default should be allocated between principal and income. In limited circumstances, it may also not be clear whether a Fund should recognize market discount on a debt obligation, and if so, what amount of market discount the Fund should recognize. These and other related issues will be addressed by a Fund when, as and if it invests in such securities, in order

to seek to ensure that it distributes sufficient income to preserve its status as a RIC and does not become subject to U.S. federal income or excise tax.

Issuer Deductibility of Interest. A portion of the interest paid or accrued on certain high yield discount obligations owned by a Fund may not be deductible to (and thus, may affect the cash flow of) the issuer. If a portion of the interest paid or accrued on certain high yield discount obligations is not deductible, that portion will be treated as a dividend for purposes of the corporate dividends-received deduction. In such cases, if the issuer of the high yield discount obligation is a U.S. corporation, dividend payments by a Fund may be eligible for the dividends-received deduction to the extent of the deemed dividend portion of such accrued interest.

Interest paid on debt obligations owned by a Fund, if any, that are considered for U.S. federal income tax purposes to be payable in the equity of the issuer or a related party will not be deductible to the issuer, possibly affecting the cash flow of the issuer.

Tax-Exempt Shareholders. A tax-exempt U.S. shareholder could recognize unrelated business taxable income ("UBTI") by virtue of its investment in a Fund if Shares constitute debt-financed property in the hands of the tax-exempt U.S. shareholder within the meaning of Code Section 514(b). Furthermore, a tax-exempt U.S. shareholder may recognize UBTI if a Fund recognizes "excess inclusion income" derived from direct or indirect investments in residual interests in real estate mortgage investment conduits ("REMICs") or equity interests in taxable mortgage pools ("TMPs") if the amount of such income recognized by the Fund exceeds the Fund's investment company taxable income (after taking into account deductions for dividends paid by the Fund).

In addition, special tax consequences apply to charitable remainder trusts ("CRTs") that invest in RICs that invest directly or indirectly in residual interests in REMICs or equity interests in TMPs. A CRT (as defined in Code Section 664) that realizes any UBTI for a taxable year, must pay an excise tax annually of an amount equal to such UBTI. Under IRS guidance issued in October 2006, a CRT will not recognize UBTI solely as a result of investing in a Fund that recognizes "excess inclusion income." Rather, if at any time during any taxable year a CRT (or one of certain other tax-exempt shareholders, such as the United States, a state or political subdivision, or an agency or instrumentality thereof, and certain energy cooperatives) is a record holder of Shares in a Fund that recognizes "excess inclusion income," then the Fund will be subject to a tax on that portion of its "excess inclusion income" for the taxable year that is allocable to such shareholders, at the highest corporate U.S. federal income tax rate. The extent to which this IRS guidance remains applicable is unclear. To the extent permitted under the 1940 Act, a Fund may elect to specially allocate any such tax to the applicable CRT, or other shareholder, and thus reduce such shareholder's distributions for the year by the amount of the tax that relates to such shareholder's interest in the Fund. The Funds have not yet determined whether such an election will be made. CRTs and other tax-exempt investors are urged to consult their own tax advisers concerning the consequences of investing in the Funds.

Foreign Taxation. Income received by a Fund from sources within foreign countries may be subject to withholding and other taxes imposed by such countries. Tax conventions between certain countries and the United States may reduce or eliminate such taxes.

A "qualified fund of funds" is a RIC that has at least 50% of the value of its total interests invested in other RICs at the end of each quarter of the taxable year. If a Fund satisfies this requirement or if it meets certain other requirements, which include a requirement that more than 50% of the value of the Fund's total assets at the close of its taxable year consist of stocks or securities of foreign corporations, then the Fund should be eligible to file an election with the IRS that may enable its shareholders to receive either the benefit of a foreign tax credit, or a tax deduction, with respect to any foreign and U.S. possessions income taxes paid by the Fund, subject to certain limitations.

Taxation of Non-U.S. Shareholders. Capital Gain Dividends are generally not subject to withholding of U.S. federal income tax. Absent a specific statutory exemption, dividends other than Capital Gain Dividends paid by a Fund to a Non-U.S. shareholder are subject to withholding of U.S. federal income tax at a rate of 30% (or lower applicable treaty rate) even if they are funded by income or gains (such as portfolio interest, short-term capital gains, or foreign-source dividend and interest income) that, if paid to a foreign person directly, would not be subject to withholding.

A RIC is not required to withhold any amounts (i) with respect to distributions (other than distributions to a Non-U.S. shareholder (a) that does not provide a satisfactory statement that the beneficial owner is not a U.S. person, (b) to the extent that the dividend is attributable to certain interest on an obligation if the Non-U.S. shareholders is the issuer or is a 10% shareholder of the issuer, (c) that is within a foreign country that has inadequate information exchange with the United States, or (d) to the extent the dividend is attributable to interest paid by a person that is a related person of the Non-U.S. shareholder and the Non-U.S. shareholder is a controlled foreign corporation) from U.S.-source interest income of types similar to those not subject to U.S. federal income tax if earned directly by a Non-U.S. shareholder, to the extent such distributions are properly reported as such by the Fund in a written notice to shareholders (“Interest-Related Dividends”), and (ii) with respect to distributions (other than (a) distributions to an individual Non-U.S. shareholder who is present in the United States for a period or periods aggregating 183 days or more during the year of the distribution and (b) distributions subject to special rules regarding the disposition of U.S. real property interests (“USRPIs”) as described below) of net short-term capital gains in excess of net long-term capital losses to the extent such distributions are properly reported by the RIC (“Short-Term Capital Gain Dividends”). If a Fund invests in an underlying RIC that pays such distributions to the Fund, such distributions retain their character as not subject to withholding if properly reported when paid by the Fund to Non-U.S. shareholders.

A Fund is permitted to report such part of its dividends as Interest-Related Dividends or Short-Term Capital Gain Dividends as are eligible, but is not required to do so. These exemptions from withholding will not be available to Non-U.S. shareholders that do not currently report their dividends as Interest-Related Dividends or Short-Term Capital Gain Dividends.

In the case of Shares held through an intermediary, the intermediary may withhold even if a Fund reports all or a portion of a payment as an Interest-Related Dividend or Short-Term Capital Gain Dividend to shareholders. Non-U.S. shareholders should contact their intermediaries regarding the application of these rules to their accounts.

A Non-U.S. shareholder generally is not subject to U.S. federal income tax on gains (and is not allowed a deduction for losses) realized on the sale of Shares or on Capital Gain Dividends unless (i) such gain or dividend is effectively connected with the conduct of a trade or business carried on by such shareholder within the United States, (ii) in the case of an individual shareholder, the shareholder is present in the United States for a period or periods aggregating 183 days or more during the year of the sale or the receipt of the Capital Gain Dividends and certain other conditions are met, or (iii) the special rules relating to gain attributable to the sale or exchange of USRPIs apply to the Non-U.S. shareholder’s sale of Shares or to the Capital Gain Dividend received by the Non-U.S. shareholder.

Special rules would apply if a Fund were either a “U.S. real property holding corporation” (“USRPHC”) or would be a USRPHC but for the operation of certain exceptions to the definition thereof. Very generally, a USRPHC is a U.S. corporation that holds USRPIs the fair market value of which equals or exceeds 50% of the sum of the fair market values of the corporation’s USRPIs, interests in real property located outside the United States, and other assets. USRPIs are generally defined as any interest in U.S. real property and any interest (other than solely as a creditor) in a USRPHC or former USRPHC.

If a Fund were a USRPHC or would be a USRPHC but for certain exceptions, any distributions by the Fund to a Non-U.S. shareholder (including, in certain cases, distributions made by the Fund in redemption of its Shares) attributable to gains realized by the Fund on the disposition of USRPIs or to distributions received by the Fund from a lower-tier RIC or REIT that the Fund is required to treat as USRPI gain in its hands generally would be subject to U.S. federal income tax withholding. In addition, such distributions could result in a Non-U.S. shareholder being required to file a U.S. federal income tax return and pay tax on the distributions at regular U.S. federal income tax rates. The consequences to a Non-U.S. shareholder, including the rate of such withholding and character of such distributions, would vary depending upon the extent of the Non-U.S. shareholder's current and past ownership of the Fund. This "look-through" USRPI treatment for distributions by a Fund, if it were either a USRPHC or would be a USRPHC but for the operation of certain exceptions, to Non-U.S. shareholders applies only to those distributions that, in turn, are attributable to distributions received by the Fund from a lower-tier RIC or REIT, unless Congress enacts legislation providing otherwise.

In addition, if a Fund were a USRPHC or former USRPHC, it could be required to withhold U.S. federal income tax on the proceeds of a Share redemption or sale by a Non-U.S. shareholder, in which case such Non-U.S. shareholder generally would also be required to file a U.S. federal income tax return and pay any additional taxes due in connection with the redemption.

Whether or not a Fund is characterized as a USRPHC will depend upon the nature and mix of the Fund's assets. Each Fund does not expect to be a USRPHC. Non-U.S. shareholders should consult their own tax advisers concerning the application of these rules to their investment in a Fund.

If a Non-U.S. shareholder has a trade or business in the United States, and the dividends from a Fund are effectively connected with the Non-U.S. shareholder's conduct of that trade or business, the dividend will be subject to net U.S. federal income taxation at regular income tax rates.

If a Non-U.S. shareholder is eligible for the benefits of a tax treaty, any effectively connected income or gain will generally be subject to U.S. federal income tax on a net basis only if it is also attributable to a permanent establishment maintained by that Non-U.S. shareholder in the United States.

To qualify for any exemptions from withholding described above or for lower withholding tax rates under income tax treaties, or to establish an exemption from backup withholding, a Non-U.S. shareholder must comply with special certification and filing requirements relating to its non-U.S. status (including, in general, furnishing an applicable IRS Form W-8). Non-U.S. shareholders should consult their own tax advisers in this regard.

A Non-U.S. shareholder may be subject to U.S. state and local tax and to the U.S. federal estate tax in addition to the U.S. federal income tax referred to above.

Backup Withholding. Each Fund generally is required to backup withhold and remit to the U.S. Treasury Department a percentage of the taxable distributions and redemption proceeds paid to any individual shareholder who fails to properly furnish the Fund with a correct taxpayer identification number, who has under-reported dividend or interest income, or who fails to properly certify to the Fund that he or she is not subject to such withholding. The backup withholding tax rate is currently 24%.

Backup withholding is not an additional tax. Any amounts withheld may be credited against the shareholder's U.S. federal income tax liability, provided the appropriate information is furnished to the IRS.

Tax Shelter Reporting Regulations. If a shareholder recognizes a loss with respect to the Shares of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder, the shareholder must file with the IRS a disclosure statement on Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a RIC are not excepted. Future guidance may extend the current exception from this reporting requirement to shareholders of most or all RICs. The fact that a loss is reportable does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax own advisers to determine the applicability of this requirement in light of their individual circumstances.

FATCA. Payments to a shareholder that is either a foreign financial institution ("FFI") or a non-financial foreign entity ("NFFE") within the meaning of the Foreign Account Tax Compliance Act ("FATCA") may be subject to a generally nonrefundable 30% withholding tax on: (i) income dividends paid by a Fund and (ii) possibly in the future, certain capital gain distributions and the proceeds arising from the sale of Shares of a Fund. FATCA withholding tax generally can be avoided: (i) by an FFI, subject to any applicable intergovernmental agreement or other exemption, if it enters into a valid agreement with the IRS to, among other requirements, report required information about certain direct and indirect ownership of foreign financial accounts held by U.S. persons with the FFI and (ii) by an NFFE, if it: (a) certifies that it has no substantial U.S. persons as owners or (b) if it does have such owners, reports information relating to them. The Funds may disclose the information that it receives from its shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA. Withholding also may be required if a foreign entity that is a shareholder of a Fund fails to provide the Fund with appropriate certifications or other documentation concerning its status under FATCA, generally on an applicable IRS Form W-8.

Shares Purchased through Tax-Qualified Plans. Special tax rules apply to investments purchased through defined contribution plans and other tax-qualified plans. Shareholders should consult their own tax advisers to determine the suitability of Shares as an investment through such plans, and the precise effect of an investment on their particular tax situation.

Possible Tax Law Changes. At the time that this SAI was being prepared, various administrative and legislative changes to the U.S. federal tax laws are under consideration, but it is not possible at this time to determine whether any of these changes will take place or what the changes might entail.

The foregoing is a general and abbreviated summary of the provisions of the Code and the Treasury regulations in effect as they directly govern the taxation of the Funds and their shareholders. These provisions are subject to change by legislative and administrative action, and any such change may be retroactive. Shareholders are urged to consult their own tax advisers regarding specific questions as to U.S. federal income, estate or gift taxes, or foreign, state, local taxes or other taxes.

BROKERAGE ALLOCATION AND OTHER PRACTICES

Brokerage Transactions. Generally, equity securities are bought and sold through brokerage transactions for which commissions are payable. Purchases from underwriters will include the underwriting commission or concession, and purchases from dealers serving as market makers will include a dealer's mark-up or reflect a dealer's mark-down. The purchase price for securities bought from dealers serving as market makers will similarly include the dealer's mark up or reflect a dealer's mark down. When a Fund executes transactions in the over-the-counter market, it will generally deal with primary market makers unless prices that are more favorable are otherwise obtainable.

In selecting brokers and dealers to execute portfolio transactions, the Adviser and/or Sub-Adviser may consider research and brokerage services furnished to the Adviser and/or Sub-Adviser

or its affiliates. The Adviser and/or Sub-Adviser may not consider sales of shares of the Funds as a factor in the selection of brokers and dealers, but may place portfolio transactions with brokers and dealers that promote or sell a Fund's shares so long as such transactions are done in accordance with the policies and procedures established by the Trustees that are designed to ensure that the selection is based on the quality of execution and not on sales efforts. When placing portfolio transactions with a broker or dealer, the Adviser and/or Sub-Adviser may aggregate securities to be sold or purchased for the Funds with those to be sold or purchased for other advisory accounts managed by the Adviser and/or Sub-Adviser. In aggregating such securities, the Adviser and/or Sub-Adviser will average the transaction as to price and will allocate available investments in a manner that the Adviser and/or Sub-Adviser believes to be fair and reasonable to the Funds and such other advisory accounts. An aggregated order will generally be allocated on a pro rata basis among all participating accounts, based on the relative dollar values of the participating accounts, or using any other method deemed to be fair to the participating accounts, with any exceptions to such methods involving the Trust being reported to the Trustees.

Section 28(e) of the 1934 Act permits the Adviser and/or Sub-Adviser, under certain circumstances, to cause the Funds to pay a broker or dealer a commission for effecting a transaction in excess of the amount of commission another broker or dealer would have charged for effecting the transaction in recognition of the value of brokerage and research services provided by the broker or dealer. In addition to agency transactions, the Adviser may receive brokerage and research services in connection with certain riskless principal transactions, in accordance with applicable SEC guidance. Brokerage and research services include: (1) furnishing advice as to the value of securities, the advisability of investing in, purchasing or selling securities, and the availability of securities or purchasers or sellers of securities; (2) furnishing analyses and reports concerning issuers, industries, securities, economic factors and trends, Fund strategy, and the performance of accounts; and (3) effecting securities transactions and performing functions incidental thereto (such as clearance, settlement, and custody). In the case of research services, the Adviser believes that access to independent investment research is beneficial to its investment decision-making processes and, therefore, to the Funds.

To the extent that research services may be a factor in selecting brokers, such services may be in written form or through direct contact with individuals and may include information as to particular companies and securities as well as market, economic, or institutional areas and information which assists in the valuation and pricing of investments. Examples of research-oriented services for which the Adviser and/or Sub-Adviser might utilize Fund commissions include research reports and other information on the economy, industries, sectors, groups of securities, individual companies, statistical information, political developments, technical market action, pricing and appraisal services, credit analysis, risk measurement analysis, performance and other analysis. The Adviser and/or Sub-Adviser may use research services furnished by brokers in servicing all client accounts and not all services may necessarily be used in connection with the account that paid commissions to the broker providing such services. Information so received by the Adviser and/or Sub-Adviser will be in addition to and not in lieu of the services required to be performed by the Adviser and/or Sub-Adviser under its advisory agreement. Any advisory or other fees paid to the Adviser are not reduced as a result of the receipt of research services.

In some cases the Adviser and/or Sub-Adviser may receive a service from a broker that has both a "research" and a "non-research" use. When this occurs, the Adviser and/or Sub-Adviser makes a good faith allocation, under all the circumstances, between the research and non-research uses of the service. The percentage of the service that is used for research purposes may be paid for with client commissions, while the Adviser and/or Sub-Adviser will use its own funds to pay for the percentage of the service that is used for non-research purposes. In making this good faith allocation, the Adviser and/or Sub-Adviser faces a potential conflict of interest, but the Adviser and/or Sub-Adviser believes that its allocation procedures are reasonably designed to ensure that it appropriately allocates the anticipated use of such services to their research and non-research uses.

From time to time, the Funds may purchase new issues of securities in a fixed price offering. In these situations, the seller may be a member of the selling group that will, in addition to selling securities, provide the Adviser and/or Sub-Adviser with research services. FINRA has adopted rules expressly permitting these types of arrangements under certain circumstances. Generally, the seller will provide research "credits" in these situations at a rate that is higher than that which is available for typical secondary market transactions. These arrangements may not fall within the safe harbor of Section 28(e).

Brokerage with Fund Affiliates. The Funds may execute brokerage or other agency transactions through registered broker-dealer affiliates of the Fund, the Adviser and/or Sub-Adviser for a commission in conformity with the 1940 Act, the 1934 Act and rules promulgated by the SEC. These rules further require that commissions paid to the affiliate by the Funds for exchange transactions not exceed "usual and customary" brokerage commissions. The rules define "usual and customary" commissions to include amounts which are "reasonable and fair compared to the commission, fee or other remuneration received or to be received by other brokers in connection with comparable transactions involving similar securities being purchased or sold on a securities exchange during a comparable period of time." The Trustees, including those who are not "interested persons" of the Funds, have adopted procedures for evaluating the reasonableness of commissions paid to affiliates and review these procedures periodically.

Securities of "Regular Broker-Dealers". Each Fund is required to identify any securities of its "regular brokers and dealers" (as such term is defined in the 1940 Act) which the Fund may hold at the close of its most recent fiscal year. Each Fund is newly formed and has not commenced operations as of the date of this SAI.

DISCLOSURE OF PORTFOLIO SECURITIES HOLDINGS

On each Business Day (as defined in the Creation and Redemption of Creation Units section of this SAI), prior to the opening of regular trading on the Funds' primary listing exchange, the Funds disclose on their website (www.appliedfinancefunds.com) certain information relating to the portfolio holdings that will form the basis of the Funds' next net asset value per share calculation.

In addition, certain information may also be made available to certain parties:

- **Communications of Data Files:** Each Fund may make available through the facilities of the National Securities Clearing Corporation ("NSCC") or through posting on the Fund's website, prior to the opening of trading on each business day, a list of the Fund's holdings (generally pro-rata) that Authorized Participants could deliver to the Fund to settle purchases of the Fund (i.e. Deposit Securities) or that Authorized Participants would receive from the Fund to settle redemptions of the Fund (i.e. Fund Securities). These files are known as the Portfolio Composition Files and the Fund Data Files (collectively, "Files"). The Files are applicable for the next trading day and are provided to the NSCC and/or posted on the Funds' website after the close of markets in the U.S.
- **Communications with Authorized Participants and Liquidity Providers:** Certain employees of the Adviser, Distributor and Custodian are responsible for interacting with Authorized Participants and liquidity providers with respect to discussing custom basket proposals as described in the Custom Baskets section of this SAI. As part of these discussions, these employees may discuss with an Authorized Participant or liquidity provider the securities each Fund is willing to accept for a creation, and securities that the Fund will provide on a redemption.

- The Adviser may also discuss portfolio holdings-related information with broker/dealers, in connection with settling each Fund's transactions, as may be necessary to conduct business in the ordinary course in a manner consistent with the disclosure in the Funds' current registration statement.
- Communications with Listing Exchanges: From time to time, employees of the Adviser, Distributor and/or Custodian may discuss portfolio holdings information with the applicable primary listing exchange for the Funds as needed to meet the exchange listing standards.
- Communication of Other Information: Certain explanatory information regarding the Files is released to Authorized Participants and liquidity providers on a daily basis, but is only done so after the Files are posted to the Funds' website.
- Third-Party Service Providers: Certain portfolio holdings information may be disclosed to the Trustees and their counsel, outside counsel for the Funds, auditors and to certain third-party service providers (i.e., fund administrator, custodian, proxy voting service, and printers), as may be necessary to conduct business in the ordinary course in a manner consistent with applicable policies, agreements with the Funds, the terms of the current registration statement and federal securities laws and regulations thereunder.
- Each Fund files its complete portfolio holdings schedule with the SEC on a quarterly basis. This schedule is filed on the Trust's report on Form N-CSR for the second and fourth fiscal quarters and on Form N-PORT for the first and third fiscal quarters. Certain portfolio information is also included on Form N-PORT that is filed for the second and fourth fiscal quarters. The portfolio holdings information provided in these reports is as of the end of the respective quarter. Form N-CSR must be filed with the SEC no later than ten (10) calendar days after the Trust transmits its annual or semi-annual report to its shareholders. Form N-PORT must be filed with the SEC and will be made publicly available no later than sixty (60) calendar days after the end of the applicable quarter. Each Fund's portfolio holdings schedules filed on Form N-CSR and Form N-PORT are posted to each Fund's website no later than sixty (60) days following the fiscal quarters.

No consideration may be received by the Funds, the Adviser, or any other person in connection with the disclosure of portfolio information. The Trust's Chief Compliance Officer or his or her delegate may authorize disclosure of portfolio holdings information pursuant to the above policy and procedures, subject to restrictions on selective disclosure imposed by applicable law. The Board reviews the policy and procedures for disclosure of portfolio holdings information at least annually.

DESCRIPTION OF SHARES

The Trust's Agreement and Declaration of Trust authorizes the Board to issue an unlimited number of full and fractional shares of beneficial interest in the Trust and to classify or reclassify any unissued shares into one or more series of shares. The Agreement and Declaration of Trust further authorizes the trustees to classify or reclassify any series of shares into one or more classes. The Trust's shares of beneficial interest have no par value.

Each Fund is authorized to issue one class of shares imposing no front-end or deferred sales charges, no 12b-1 fee and no service fee.

Shares have no preemptive rights and only such conversion or exchange rights as the Board may grant in its discretion. When issued for payment as described in the applicable prospectus, shares will be fully paid and non-assessable. In the event of a liquidation or dissolution of the Trust or an individual fund, shareholders of a fund are entitled to receive the assets available for distribution belonging to the particular fund, and a proportionate distribution, based upon the relative asset values

of the respective fund, of any general assets of the Trust not belonging to any particular fund which are available for distribution.

Shareholders are entitled to one vote for each full share held, and a proportionate fractional vote for each fractional share held and will vote in the aggregate and not by class, except as otherwise expressly required by law or when the Board determines that the matter to be voted on affects only the interests of shareholders of a particular class. Voting rights are not cumulative and, accordingly, the holders of more than 50% of the aggregate of the Trust's outstanding shares may elect all of the trustees, irrespective of the votes of other shareholders.

Rule 18f-2 under the 1940 Act provides that any matter required to be submitted to the holders of the outstanding voting securities of an investment company such as the Trust shall not be deemed to have been effectively acted upon unless approved by the holders of a majority of the outstanding shares of each fund affected by the matter. A particular fund is deemed to be affected by a matter unless it is clear that the interests of each fund in the matter are substantially identical or that the matter does not affect any interest of the fund. Under the Rule, the approval of an investment management agreement or any change in an investment objective, if fundamental, or in a fundamental investment policy would be effectively acted upon with respect to a fund only if approved by a majority of the outstanding shares of such fund. However, the Rule also provides that the ratification of the appointment of independent public accountants, the approval of principal underwriting contracts and the election of trustees may be effectively acted upon by shareholders of the Trust voting without regard to series or class.

The Trust does not presently intend to hold annual meetings of shareholders except as required by the 1940 Act or other applicable law. Upon the written request of shareholders owning at least 25% of the Trust's shares, the Trust will call for a meeting of shareholders to consider the removal of one or more trustees and other certain matters. To the extent required by law, the Trust will assist in shareholder communication in such matters.

The Board has full power and authority, in its sole discretion, and without obtaining shareholder approval, to divide or combine the shares of any class or series thereof into a greater or lesser number, to classify or reclassify any issued shares or any class or series thereof into one or more classes or series of shares, and to take such other action with respect to the Trust's shares as the Board may deem desirable. The Agreement and Declaration of Trust authorizes the Trustees, without shareholder approval, to cause the Trust to merge or to consolidate with any corporation, association, trust or other organization in order to change the form of organization and/or domicile of the Trust or to sell or exchange all or substantially all of the assets of the Trust, or any series or class thereof, in dissolution of the Trust, or any series or class thereof. The Agreement and Declaration of Trust permits the termination of the Trust or of any series or class of the Trust by the Trustees without shareholder approval. However, the exercise of such authority by the Board without shareholder approval may be subject to certain restrictions or limitations under the 1940 Act.

PROXY VOTING

The Board of Trustees of the Trust has delegated responsibility for decisions regarding proxy voting for securities held by each Fund to the Adviser. The Adviser will vote such proxies in accordance with its proxy voting policies and procedures, which are included in Exhibit B to this SAI. The Board of Trustees will periodically review each Fund's proxy voting record. The proxy voting policies and procedures of the Trust are included as Exhibit A to this SAI.

The Trust is required to disclose annually each Fund's complete proxy voting record on Form N-PX. Any material changes to the proxy policies and procedures will be submitted to the Board for approval. Information regarding how each Fund voted proxies relating to portfolio securities for the most recent 12-month period ending June 30, will be available (1) without charge, upon request by

calling 833-356-0909 or by writing to the Fund at 8730 Stony Point Parkway, Suite 205, Richmond, Virginia 23235; (2) or through the Fund's website at www.appliedfinancefunds.com; and (3) on the SEC's Internet website at <http://www.sec.gov>.

CODES OF ETHICS

The Board of Trustees, on behalf of the Trust, has adopted a Code of Ethics pursuant to Rule 17j-1 under the 1940 Act. In addition, the Adviser, Sub-Adviser, Distributor and the Administrator have each adopted Codes of Ethics pursuant to Rule 17j-1. These Codes of Ethics apply to the personal investing activities of trustees, officers and certain employees ("access persons"). Rule 17j-1 and the Codes of Ethics are designed to prevent unlawful practices in connection with the purchase or sale of securities by access persons. Under each Code of Ethics, access persons are permitted to engage in personal securities transactions, but are required to report their personal securities transactions for monitoring purposes. The personnel subject to the Codes are permitted to invest in securities, including securities that may be purchased or held by the Funds. In addition, certain access persons are required to obtain approval before investing in initial public offerings or private placements, or are prohibited from making such investments. Copies of these Codes of Ethics are on file with the SEC, and are available to the public on the EDGAR Database on the SEC's Internet website at <http://www.sec.gov>.

FINANCIAL STATEMENTS

The Funds are new and do not have audited financial statements at this time. Upon completion of the Funds' first fiscal period/year, audited financial statements will become available.

EXHIBIT A

ETF Opportunities Trust

PROXY VOTING POLICY AND PROCEDURES

The ETF Opportunities Trust (the “Trust”) is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (“1940 Act”). The Trust offers multiple series (each a “Fund” and, collectively, the “Funds”). Consistent with its fiduciary duties and pursuant to Rule 30b1-4 under the 1940 Act (the “Proxy Rule”), the Board of Trustees of the Trust (the “Board”) has adopted this proxy voting policy on behalf of the Trust (the “Policy”) to reflect its commitment to ensure that proxies are voted in a manner consistent with the best interests of the Funds’ shareholders.

Delegation of Proxy Voting Authority to Fund Advisers

The Board believes that the investment adviser, or the investment sub-adviser as appropriate, of each Fund (each an “Adviser”), as the entity that selects the individual securities that comprise its Fund’s portfolio, is the most knowledgeable and best-suited to make decisions on how to vote proxies of portfolio companies held by that Fund. The Trust shall therefore defer to, and rely on, the Adviser of each Fund to make decisions on how to cast proxy votes on behalf of such Fund.

The Trust hereby designates the Adviser of each Fund as the entity responsible for exercising proxy voting authority with regard to securities held in the Fund’s investment portfolio. Consistent with its duties under this Policy, each Adviser shall monitor and review corporate transactions of corporations in which the Fund has invested, obtain all information sufficient to allow an informed vote on all proxy solicitations, ensure that all proxy votes are cast in a timely fashion, and maintain all records required to be maintained by the Fund under the Proxy Rule and the 1940 Act. Each Adviser shall perform these duties in accordance with the Adviser’s proxy voting policy, a copy of which shall be presented to this Board for its review. Each Adviser shall promptly provide to the Board updates to its proxy voting policy as they are adopted and implemented.

Conflict of Interest Transactions

In some instances, an Adviser may be asked to cast a proxy vote that presents a conflict between the interests of a Fund’s shareholders and those of the Adviser or an affiliated person of the Adviser. In such case, the Adviser is instructed to abstain from making a voting decision and to forward all necessary proxy voting materials to the Trust to enable the Board to make a voting decision. When the Board is required to make a proxy voting decision, only the Trustees without a conflict of interest with regard to the security in question or the matter to be voted upon shall be permitted to participate in the decision of how the Fund’s vote will be cast. In the event that the Board is required to vote a proxy because an Adviser has a conflict of interest with respect to the proxy, the Board will vote such proxy in accordance with the Adviser’s proxy voting policy, to the extent consistent with the shareholders’ best interests, as determined by the Board in its discretion. The Board shall notify the Adviser of its final decision on the matter and the Adviser shall vote in accordance with the Board’s decision.

Availability of Proxy Voting Policy and Records Available to Fund Shareholders

If a Fund has a website, the Fund may post a copy of its Adviser's proxy voting policy and this Policy on such website. Effective July 1, 2024, a Fund shall make publicly available its most recently filed report on Form N-PX on or through its website as soon as reasonably practicable after filing the report with the Commission. The information disclosed on Form N-PX shall be in a readable format. In addition, a copy of such policies and of each Fund's proxy voting record shall also be made available, without charge, upon request of any shareholder of the Fund, by calling the applicable Fund's toll-free telephone number as printed in the Fund's prospectus. The Trust's administrator shall reply to any Fund shareholder request within three business days of receipt of the request, by first-class mail or other means designed to ensure equally prompt delivery.

Each Adviser shall provide a complete voting record, as required by the Proxy Rule, for each series of the Trust for which it acts as adviser, to the Trust's administrator within 30 days following the end of each 12-month period ending June 30. The Trust's administrator will file a report based on such record on Form N-PX on an annual basis with the U.S. Securities and Exchange Commission no later than August 31st of each year.

EXHIBIT B

PROXY VOTING AND DISCLOSURE POLICY

APPLIED FINANCE ADVISORS LLC

PROXY AND CORPORATE ACTION VOTING POLICIES AND PROCEDURES

I. POLICY.

Applied Finance Advisors LLC (the “Adviser”) acts as a discretionary investment adviser for various clients, including clients governed by the Employee Retirement Income Security Act of 1974 (“ERISA”) and registered open-end management investment companies (i.e., “mutual funds”). The Adviser is registered with the U.S. Securities and Exchange Commission (the “SEC”) as an investment adviser pursuant to the Investment Advisers Act of 1940, as amended (the “Advisers Act”). Some of the Adviser’s clients have delegated to the Adviser the authority to vote proxies or act with respect to corporate actions that may arise with respect to securities held within such client’s investment portfolio. Corporate actions may include, for example and without limitation, tender offers or exchanges, bankruptcy proceedings, and class actions. The Adviser’s authority to vote proxies or act with respect to other corporate actions is established through the delegation of discretionary authority under its investment advisory agreements. Therefore, unless a client (including a “named fiduciary” under ERISA) specifically reserves the right, in writing, to vote its own proxies or to take shareholder action with respect to other corporate actions requiring shareholder actions, the Adviser will vote all proxies and act on all other actions in a timely manner as part of its full discretionary authority over client assets in accordance with these policies and procedures.

When voting proxies or acting with respect to corporate actions on behalf of clients, the Adviser’s utmost concern is that all decisions be made solely in the best interests of the client (and for ERISA accounts, plan beneficiaries and participants, in accordance with the letter and spirit of ERISA). The Adviser will act in a prudent and diligent manner intended to enhance the economic value of the assets in the client’s account.

II. PURPOSE.

The purpose of these policies and procedures is to memorialize the procedures and policies adopted by the Adviser to enable it to comply with its fiduciary responsibilities to clients and the requirements of Rule 206(4)-6 under the Advisers Act. These policies and procedures also reflect the fiduciary standards and responsibilities set forth by the Department of Labor for ERISA accounts.

III. PROCEDURES.

The Adviser is ultimately responsible for ensuring that all proxies received are voted in a timely manner and in a manner consistent with the Adviser’s determination of the client’s best interests. Although many proxy proposals may be voted in accordance with the Guidelines described in Section V below, some proposals require special consideration which may dictate that the Adviser makes an exception to the Guidelines.

The Adviser is also responsible for ensuring that all corporate action notices or requests which require shareholder action that are received are addressed in a timely manner and consistent action is taken across all similarly situated client accounts.

A. Conflicts of Interest.

Where a proxy proposal raises a material conflict between the Adviser's interests and a client's interest, including a mutual fund client, the Adviser will resolve such a conflict in the manner described below:

1. **Vote in Accordance with the Guidelines.** To the extent that the Adviser has little or no discretion to deviate from the Guidelines with respect to the proposal in question, the Adviser shall vote in accordance with such pre-determined voting policy.
2. **Obtain Consent of Clients.** To the extent that the Adviser has discretion to deviate from the Guidelines with respect to the proposal in question, the Adviser will disclose the conflict to the relevant clients and obtain their consent to the proposed vote prior to voting the securities. The disclosure to the client will include sufficient detail regarding the matter to be voted on and the nature of the conflict so that the client will be able to make an informed decision regarding the vote. If a client does not respond to such a conflict disclosure request or denies the request, the Adviser will abstain from voting the securities held by that client's account.
3. **Client Directive to Use an Independent Third Party.** Alternatively, a client may, in writing, specifically direct the Adviser to forward all proxy matters in which the Adviser has a conflict of interest regarding the client's securities to an identified independent third party for review and recommendation. Where such independent third party's recommendations are received on a timely basis, the Adviser will vote all such proxies in accordance with such third party's recommendation. If the third party's recommendations are not timely received, the Adviser will abstain from voting the securities held by that client's account.

The Adviser will review the proxy proposal for conflicts of interest as part of the overall vote review process. All material conflicts of interest so identified will be addressed as described above in this Section III, A.

B. Limitations.

In certain circumstances, in accordance with a client's investment advisory agreement (or other written directive) or where the Adviser has determined that it is in the client's best interest, the Adviser will not vote proxies received.

The following are certain circumstances where the Adviser will limit its role in voting proxies:

1. **Client Maintains Proxy Voting Authority.** Where a client specifies in writing that it will maintain the authority to vote proxies itself or that it has delegated the right to vote proxies to a third party, the Adviser will not vote the securities and will direct the relevant custodian to send the proxy material directly to the client. If any proxy material is received by the Adviser for such account, it will promptly be forwarded to the client or specified third party.
2. **Terminated Account.** Once a client account has been terminated in accordance with its investment advisory agreement, the Adviser will not vote any proxies received after the termination date. However, the client may specify in writing that proxies should be directed to the client (or a specified third party) for action.
3. **Limited Value.** If the Adviser determines that the value of a client's economic interest or the value of the portfolio holding is indeterminable or insignificant, the Adviser may abstain from voting a client's proxies. The Adviser also will not vote proxies received for securities which are no longer held by the client's account. In addition, the Adviser generally will not vote securities where the economic value of the securities in the client account is less than \$500.

4. Securities Lending Programs. When securities are out on loan, they are transferred into the borrower's name and are voted by the borrower, in its discretion. However, where the Adviser determines that a proxy vote (or other shareholder action) is materially important to the client's account, the Adviser may recall the security for the purposes of voting.

5. Unjustifiable Costs. In certain circumstances, after doing a cost-benefit analysis, the Adviser may abstain from voting where the cost of voting a client's proxy would exceed any anticipated benefits from the proxy proposal.

IV. RECORD KEEPING.

In accordance with Rule 204-2 under the Advisers Act, the Adviser will maintain for the time periods set forth in the Rule: (i) these proxy voting procedures and policies, and all amendments thereto; (ii) all proxy statements received regarding client securities (provided however, that the Adviser may rely on the proxy statement filed on EDGAR as its records); (iii) a record of all votes cast on behalf of clients; (iv) records of all written client requests for proxy voting information; (v) a copy of any written response made by the Adviser to any written or oral client request for proxy voting information; (vi) any documents prepared by the Adviser that were material to making a decision on how to vote or that memorialized the basis for the decision; and (vii) all records relating to requests made to clients regarding conflicts of interest in voting the proxy.

The Adviser will describe in its Form ADV, Part II (or other brochure fulfilling the requirement of Rule 204-3 under the Advisers Act) its proxy voting policies and procedures and will inform clients how they may obtain information on how the Adviser voted proxies with respect to the clients' portfolio securities. The Adviser will also provide to each mutual fund client a copy of its policies and procedures. Clients may obtain information on how their securities were voted or a copy of the policies and procedures by written request addressed to the Adviser.

The Adviser will coordinate with all mutual fund clients to assist in the provision of all information required to be filed by such mutual funds on Form N-PX. Form N-PX will provide information concerning each matter relating to a portfolio security considered at any shareholder meeting with respect to which a mutual fund was entitled to vote. Each Form N-PX will need to be filed no later than August 31st of each year, and will cover all proxy votes with respect to which a mutual fund was entitled to vote for the period July 1st through June 30th. The Adviser shall maintain and provide the following information concerning any shareholder meetings with respect to which a mutual fund they manage was entitled to vote:

- the name of the issuer of the portfolio security;
- the exchange ticker symbol of the portfolio security⁽¹⁾;
- the CUSIP number of the portfolio security⁽¹⁾;
- the shareholder meeting date;
- a brief description of the matter voted on;
- whether the matter was put forward by the issuer or a shareholder;
- whether the mutual fund voted;
- how the mutual fund cast its vote; and
- whether the mutual fund cast its vote for or against management.

V. GUIDELINES.

Each proxy issue will be considered individually. The following guidelines are a partial list to be used in voting proposals contained in the proxy statements, but will not be used as rigid rules.

A. Oppose.

The Adviser will generally vote against any management proposal that clearly has the effect of restricting the ability of shareholders to realize the full potential value of their investment. Proposals in this category would include:

1. Issues regarding the issuer's board entrenchment and anti-takeover measures such as the following:

- a. Proposals to stagger board members' terms;
- b. Proposals to limit the ability of shareholders to call special meetings;
- c. Proposals to require super majority votes;
- d. Proposals requesting excessive increases in authorized common or preferred shares where management provides no explanation for the use or need of these additional shares;
- e. Proposals regarding "fair price" provisions;
- f. Proposals regarding "poison pill" provisions; and
- g. Permitting "green mail".

2. Providing cumulative voting rights.

B. Approve.

Routine proposals are those which do not change the structure, bylaws, or operations of the corporation to the detriment of the shareholders. Given the routine nature of these proposals, proxies will nearly always be voted with management. Traditionally, these issues include:

1. Election of independent accountants recommended by management, unless seeking to replace if there exists a dispute over policies.
2. Date and place of annual meeting.
3. Limitation on charitable contributions or fees paid to lawyers.
4. Ratification of directors' actions on routine matters since previous annual meeting.
5. Confidential voting. Confidential voting is most often proposed by shareholders as a means of eliminating undue management pressure on shareholders regarding their vote on proxy issues. The Adviser will generally vote to approve these proposals as shareholders can later divulge their votes to management on a selective basis if a legitimate reason arises.
6. Limiting directors' liability.
7. Eliminate preemptive rights. Preemptive rights give current shareholders the opportunity to maintain their current percentage ownership through any subsequent equity offerings. These provisions are no longer common in the U.S., and can restrict management's ability to raise new capital.
8. The Adviser will generally vote to approve the elimination of preemptive rights, but will oppose the elimination of listed preemptive rights, e.g., on proposed issues representing more than an acceptable level of total dilution.
9. Employee Stock Purchase Plans.
10. Establish 401(k) Plans.

C. Case-By-Case.

The Adviser will review each issue in this category on a case-by-case basis. Voting decisions will be made based on the financial interest of the client involved. These matters include proposals to:

1. Pay directors solely in stock;
2. Eliminate director's mandatory retirement policy;
3. Rotate annual meeting location or date;
4. Changes in the state of incorporation;
5. Social and corporate responsibility issues;
6. Option and stock grants to management and directors; and

7. Allowing indemnification of directors and/or officers after reviewing the applicable laws and extent of protection requested.

D. Investment Company Issues.

From time to time the Adviser will have to vote shares of investment company securities that may be held in a client's account. These matters generally include proposals to:

1. Elect directors or trustees;
2. Ratify or approve independent accountants;
3. Approve a new investment adviser or sub-adviser;
4. Approve a change to an investment advisory fee;
5. Approve a Distribution (i.e., Rule 12b-1) Plan;
6. Approve a change in a fundamental investment objective, policy or limitation;
7. Approve a change in the state of incorporation; and
8. Approve a plan of reorganization or merger.

The Adviser will generally vote with management's recommendation on the election of directors and trustees, the approval of independent accountants, the approval of a change in a fundamental investment objective, policy or limitation, and the approval of a change in the state of incorporation. On the approval of a new investment adviser or sub-adviser, approval of a change in investment advisory fee, approval of a distribution (i.e., Rule 12b-1) plan, or the approval of a plan of reorganization or merger, the Adviser will review each issue on a case-by-case basis. Voting decisions will be made based on the financial interest of the client involved.

- (1) The exchange ticker symbol and CUSIP number may be difficult to obtain for certain portfolio securities, such as foreign issuers. Accordingly, such information may be omitted if it's not available through reasonably practicable means.

EXHIBIT C

Nominating and Corporate Governance Committee Charter ETF Opportunities Trust

Nominating and Corporate Governance Committee Membership

1. The Nominating and Corporate Governance Committee of ETF Opportunities Trust (the “Trust”) shall be composed entirely of Independent Trustees.

Board Nominations and Functions

1. The Committee shall make nominations for Trustee membership on the Board of Trustees, including the Independent Trustees. The Committee shall evaluate candidates’ qualifications for Board membership and their independence from the investment advisers to the Trust’s series portfolios and the Trust’s other principal service providers. Persons selected as Independent Trustees must not be an “interested person” as that term is defined in the Investment Company Act of 1940, nor shall Independent Trustees have any affiliations or associations that shall preclude them from voting as an Independent Trustee on matters involving approvals and continuations of Rule 12b-1 Plans, Investment Advisory Agreements and such other standards as the Committee shall deem appropriate. The Committee shall also consider the effect of any relationships beyond those delineated in the 1940 Act that might impair independence, *e.g.*, business, financial or family relationships with managers or service providers. See Appendix A for Procedures with Respect to Nominees to the Board.
2. The Committee shall periodically review Board governance procedures and shall recommend any appropriate changes to the full Board of Trustees.
3. The Committee shall periodically review the composition of the Board of Trustees to determine whether it may be appropriate to add individuals with different backgrounds or skill sets from those already on the Board.
4. The Committee shall periodically review trustee compensation and shall recommend any appropriate changes to the Independent Trustees as a group.

Committee Nominations and Functions

1. The Committee shall make nominations for membership on all committees and shall review committee assignments at least annually.
2. The Committee shall review, as necessary, the responsibilities of any committees of the Board, whether there is a continuing need for each committee, whether there is a need for additional committees of the Board, and whether committees should be combined or reorganized. The Committee shall make recommendations for any such action to the full Board.

Other Powers and Responsibilities

1. The Committee shall have the resources and authority appropriate to discharge its responsibilities, including authority to retain special counsel and other experts or consultants at the expense of the Trust.
2. The Committee shall review this Charter at least annually and recommend any changes to the full Board of Trustees.

APPENDIX A TO THE NOMINATING AND CORPORATE GOVERNANCE COMMITTEE CHARTER

ETF OPPORTUNITIES TRUST

PROCEDURES WITH RESPECT TO NOMINEES TO THE BOARD

- I. *Identification of Candidates.* When a vacancy on the Board of Trustees exists or is anticipated, and such vacancy is to be filled by an Independent Trustee, the Nominating and Corporate Governance Committee shall identify candidates by obtaining referrals from such sources as it may deem appropriate, which may include current Trustees, management of the Trust, counsel and other advisors to the Trustees, and shareholders of the Trust who submit recommendations in accordance with these procedures. In no event shall the Nominating and Corporate Governance Committee consider as a candidate to fill any such vacancy an individual recommended by any investment adviser of any series portfolio of the Trust, unless the Nominating and Corporate Governance Committee has invited management to make such a recommendation.
- II. *Shareholder Candidates.* The Nominating and Corporate Governance Committee shall, when identifying candidates for the position of Independent Trustee, consider any such candidate recommended by a shareholder if such recommendation contains: (i) sufficient background information concerning the candidate, including evidence the candidate is willing to serve as an Independent Trustee if selected for the position; and (ii) is received in a sufficiently timely manner as determined by the Nominating and Corporate Governance Committee in its discretion. Shareholders shall be directed to address any such recommendations in writing to the attention of the Nominating and Corporate Governance Committee, c/o the Secretary of the Trust. The Secretary shall retain copies of any shareholder recommendations which meet the foregoing requirements for a period of not more than 12 months following receipt. The Secretary shall have no obligation to acknowledge receipt of any shareholder recommendations.
- III. *Evaluation of Candidates.* In evaluating a candidate for a position on the Board of Trustees, including any candidate recommended by shareholders of the Trust, the Nominating and Corporate Governance Committee shall consider the following: (i) the candidate's knowledge in matters relating to the mutual fund industry; (ii) any experience possessed by the candidate as a director or senior officer of public companies; (iii) the candidate's educational background; (iv) the candidate's reputation for high ethical standards and professional integrity; (v) any specific financial, technical or other expertise possessed by the candidate, and the extent to which such expertise would complement the Board's existing mix of skills, core competencies and qualifications; (vi) the candidate's perceived ability to contribute to the ongoing functions of the Board, including the candidate's ability and commitment to attend meetings regularly and work collaboratively with other members of the Board; (vii) the candidate's ability to qualify as an Independent Trustee and any other actual or potential conflicts of interest involving the candidate and the Trust; and (viii) such other factors as the Nominating and Corporate Governance Committee determines to be relevant in light of the existing composition of the Board and any anticipated vacancies. Prior to making a final recommendation to the Board, the Nominating and Corporate Governance Committee shall conduct personal interviews with those candidates it concludes are the most qualified candidates.
